REMEMBER THIS

Taft cannot be elected. Roosevelt can be elected.

Wilson might be elected if the choice of a president was taken from the people and thrown into congress.

The election of Wilson means tampering with the incomes of the business man, the wage earner and the farmer.

It is up to every American to defend his income, upon which always depends his outgo.

The only way for the American voter to defend his income is to prevent the election of Wilson by voting for

Vote for Millage Bill Number 320 X Yes

It provides six-tenths of a mill tax for support of Agricultural College and University of Oregon, giving them permanent support and taking them out of politics. It also provides one Board of Regents, thus solving the problems of co-operation, consolidation, division of courses and economy of management.

It does not increase the average rate of taxation.

It repeals the \$500,000 Unversity appropriation bill.

The Bill is endorsed by Governor West: "This Bill is in the interest of good business and should pass."

By L. R. Alderman, State Superintendent Public Instruction: "Experience in other states shows millage bill principle to be correct."

By Will E. Daly, President, Oregon State Federation of Labor: "No argument can successfully combat the benefit to the state that will follow the adoption of the millage tax plan."

Endorsed by Portland Tax Pay-ers League.

Bill prepared by committee of Governor's Commission, Boards of Regents, and administrative officers of the two institutions.

AMERICAN FARMERS ARE NOT "BUNCOED"

BUY FARM IMPLEMENTS CHEAPER THAN CANADIAN FARMERS.

CAMPAIGN LIE IS NAILED

Investigation by State Department Gives Facts and Figures, and Michigan Manufacturing Firm Adds Evidence.

"Farmers Buncoed by the High Tariff," is the title of a publication industriously circulated among farmers by the Tariff Reform bureau of New York, a free trade annex of the Democratic party.

It asserts that American-made farm implements are sold in Canada at a lower price than they are obtainable by American farmers. The purpose of the statement is to prove that the American farmers are made to suffer through the operation of the protective tariff laws.

The statement is false. Plows, planters, cultivators and other farm implements made in the United States cost twenty-five per cent more in Canada than in this country.

The free trade advocates who try to mislead the American farmer do not know, apparently, that there is a so-called anti-dumping law in Canada whereby an American manufacturer cannot sell in that country at a lower price than at home.

Official Facts and Figures.

In addition to this, they are also ignorant to the fact that the United States government through its board of trade relations in the state department, has made a thorough investigation which disproves the false assertion. It issued under date of May 16, 1910, a document entitled "Comparison of Prices of Agricultural Implements in Canada and the United States," which shows that Canadian farmers pay more for American farm machinery than is paid by the American farmers. Here are the figures:

14-inch, steel beam walking plow—price in North Dakota, \$22; price in Manitoba, \$25.

14-inch sulky plow with lift—price in Ohio, \$40; price in Ontario, \$45.

16-inch North Dakota sulky plow—price in North Dakota, \$52; price in Manitoba, \$60.

17-tooth spring tooth harrow—price in Ohio and Michigan, \$17; price in Ontario, \$22.

8-foot, 16-inch disk harrow—price in North Dakota, \$35; price in Manitoba, \$45.

10-foot, 20 single disk Kentucky drill—price in North Dakota, \$125; price in Manitoba, \$140.

Riding cultivator, portable axle—price in Ohio and Michigan, \$28; price in Ontario, \$38.

Hay loader, rake bar—price in Ohio and Michigan, \$60; price in Ontario, \$70.

First grade farm wagon—price in North Dakota, \$95; in Manitoba, \$105.

Evidence Offered with Proof.

Evidence to the same effect is given by the Gale Manufacturing company of Albion, Mich., which was specifically charged by the free trade advocates with selling goods more cheaply to

Canadian farmers than to American farmers.

The secretary and general manager of the company, under date of August 20, 1912, wrote to the Tariff Reform club denying the charge and threatening to sue for damages unless the assertion was promptly retracted. The firm also wrote to the Republican national committee as follows:

"Plows, planters, cultivators and other farm machinery made in the United States cost 25 per cent more in Canada than in this country. You can stand on this statement, and if it is challenged we can produce proof."

The proof mentioned in this letter consists of letters from retail dealers throughout Canada quoting the prices at which the products of the Michigan factory are sold to Canadian farmers. These figures agree substantially with those given in the government publication. For instance, a planter which sells in Detroit for \$40 costs \$45 in Windsor, less than a mile away across the Detroit river, and a cultivator which sells in Detroit for \$50 cannot be bought in Windsor for less than \$55.

As soon as free trade statements are subjected to cold analysis of investigation their falsity is shown. It is an old proverb that a lie will travel seven leagues while truth is putting on its boots. It is important therefore, that farmers who have heard the untruths of free traders should promptly learn the real facts in the case.

The Kind of a Man He Is.

A few months ago a little Polish girl at Erie, Pa., wrote this letter to President Taft:

"Dear Mr. President—Myself and little brother are cold and hungry. Mother is in jail. We are without food and wood. Dear Mr. President, can't you help us?"

What did the president do? Excuse himself on the ground of official dignity, or pre-occupation? No. He answered the letter with his own hand, enclosing a crisp bill; telegraphed the authorities at Erie, who investigated the case, and before sun-down returned the mother to her sorrowing children.

By the way, did you ever read or hear of Colonel Roosevelt doing a gentle, kindly, tenderhearted thing like that?

Taking His Meals Out.

Patient (anxiously)—The size of your bill makes my blood boil. Doctor—Then that will be \$20 more for sterilizing your system.—Boston Transcript.

Do all the good you can and no harm where you cannot do good.

Incomprehension.

"I don't understand this banking business, at all," said Mrs. Hicks. "The cashier wouldn't give me any money on my check this morning because he said it was overdrawn."

"Well, wasn't it?" asked Hicks.

"Not that I know of," sighed Mrs. Hicks. "I filled it in just as you told me to, the date, amount, the person to whom paid and my signature. I didn't add a thing."—Harper's Weekly.
