**TOWNS THAT GROW**

In every county and in every state can be found towns that are continually forging ahead, while others remain practically at a stand still and accomplish nothing in the way of advancement. In every case the fault can be found to rest, not with the town, but with the people themselves.

The reason why some towns grow is because they have men in them with push and energy who are not afraid to spend their time, energy and money in anything that will boom and benefit the town. They have confidence enough in their town to erect substantial and modern buildings and residences and work for public improvements in the same order. They organize companies and establish factories, induce industrial enterprises to locate and use every means to further the best interests of the town. Their work is never considered finished and the accomplishment of one thing is only an incentive of another.

On the other hand, the town that does not get ahead will be found to be dominated by either a set of men who are perfectly satisfied with their surroundings or who are afraid somebody else will be benefited in the event something is started; consequently no effort of any kind is made by this class for these two reasons.

If some men or set of men endeavor to start something they are met by opposition and discouragement and it is uphill work all the way and very often a failure.

Every town, however, has a certain progressive element which hopes for a turn of the tide when the town will go forward by leaps and bounds and occupy a position of importance and obtain numerous advantages which go to make a good town in every sense.

But this stage cannot be accomplished by mere wishes or suppositions. It can only come from harmony in purpose and action and the eternal vigilance of its citizens.

The town with these things will continue to grow and improve, but the town without them can be expected to remain in a state of lethargy indefinitely without affording its residents anything but a mere existence.

Get ready to swat the fly! If you can't get at his solar plexus, hit him between the eyes.

There are two ways of wasting your money. One is to spend it so fast that it doesn't have and time to do good, and the other is to hold on to it so tight that it never gets a chance.

Nothing could be better than to have a beautiful interest in tree culture become a fad. A tree planting craze that would line every street and avenue with shade trees and stock every barren hillside and unprofitable field with the making of good timber trees, would at once beautify the landscape and lay the foundation of future wealth.

April 11th was Arbor Day. Tree planting in this country needs special attention since the actual tree planting is significant compared with the annual destruction. The children of today cannot be enlisted to a better cause than in awakening an interest in the care, the worth and beauty of trees and in actual tree culture.

"What made you so late?"  
"I met Smithson."

"Did you tell him to take Chamberlain's Tablets?"  
"Sure, that is what he needs." Sold by all dealers.
