Take Plenty of Time to Eat.

There is a saying that "rapid eating is slow suicide." If you have formed the habit of eating too rapidly you are most likely suffering from indigestion or constipation, which will result eventually in serious illness unless corrected. Digestion begins in the mouth. Food should be thoroughly masticated and insalivated. Then when you have a fullness of the stomach or feel dull and stupid after eating take one of Chamberlain's Tablets. Many severe cases of stomach trouble and constipation have been cured by the use of these tablets. They are easy to take and most agreeable in effect. Sold by all dealers.

I have some of the finest top and open buggies ever brought to Scio. Don't fail to see the new all steel, electric lit, horse pull, self start, auto buggy, and get prices at Morrison's Hardware and Implement House, Scio.

FRESH PAINT!

How long since this sign hung on your house?

Now just stop and think. Hasn't it been a long time? But what has the weather been doing in the meanwhile? That's the point to consider. When the elements attack the wood your house is on the down grade fast. Soon the loss from depreciation is a whole lot more than the cost of a good coat of paint.

Sure, painting costs money. So the thing to do is to buy the paint that lasts longest, and the answer is Here's the reason: Bass-Hueter Paints are made on the Pacific coast for this climate with its many days of sunshine and seasonal rainy spells.

Just as they have been for years, Bass-Hueter Paints today are the most durable for the Pacific coast climate. Get the painter to give you an estimate, but insist that he use Bass-Hueter Paints and the repainting will not be necessary for a long, long time.

We sell Bass-Hueter Paints because we know them to be most durable for the Pacific coast climate—know it by practical experience and severe test.
