

LETTERS FROM OUR COUNTRY CORRESPONDENTS

MILL CITY.

Mill City is getting to be a cosmopolitan city. One can hear several languages spoken, Austrian, Greek, Bulgarian, and nearly all the European languages as well as Japanese.

Mrs Helen Horner Hayes who died recently was a granddaughter of Mr De Ford, who was the first settler here. He settled on the present Horner ranch sixty years ago.

Harley Hessman has been hauling freight to the Black Eagle mines. The stockholders have advanced cash enough to pay running expenses and a Seattle firm will put in a crusher and all necessary machinery and take 60 per cent of the profits until the bill is paid. It looks like business. There is lots of mineral in the mountains, but takes capital to get it.

Everybody that was at the Fair says it was "fine."

The Mill Company is expecting a donkey engine that must be a monster. Mr Swift and Mr Jackson hewed the runners or shoes out with broadaxes. They are 52 feet long, 3 feet wide and 42 inches deep. The beams are 2 feet square. The donkey is of the compound type—whatever that is.

Mr Plunkett of Munkers station has charge of a gang of Japs on the logging road.

Mr Wells, another section boss has resumed work after a months vacation.

Some person or persons who did not fear the law or Gov West went to the fish tanks at a time of night when the goblins and fairies dance on the water and extracted the eggs from a big salmon and went to another tank and took several hundred "eyes." Eggs and eyes make good bait.

J R Geddes has been elected an honorary member of the Luther Burbank society of California.

The fish wardens, like the Arabs, have "silently folded their tents and stolen away."

Mr Snyder has sold his place and will go to Vancouver, B.C. to live.

Car repairing is quite a business here. Both the C & E and the Hammond Co, keep shops.

A new company seems to have taken over the electric power property at Niagara and are making preparations for extensive work.

Avoid Sedative Cough Medicines.

If you want to contribute directly to the occurrence of capillary bronchitis and pneumonia use cough medicine that contain codeine, morphine, heroin and other sedatives when you have a cough or cold. An expectorant like Chamberlain's cough remedy is what is needed. That cleans out the culture beds or breeding places for the germs of pneumonia and other germ diseases. That is why pneumonia never results from a cold when Chamberlain's cough remedy is used. It has a world wide reputation for its cures. It contains no morphine or other sedative. For sale by all dealers.

A Marvellous Escape.

"My little boy had a marvellous escape," writes P F Bastians of Prince Albert, Cape of Good Hope. "It occurred in the middle of the night. He got a very severe attack of croup. As luck would have it, I had a large bottle of Chamberlain's cough remedy in the house. After following the directions for an hour and twenty minutes he was thoroughly out of danger. Sold by all dealers."
