

LETTERS FROM OUR COUNTRY CORRESPONDENTS

SANTIAM FARM TOPICS

Our cold rains and mountains full of snow is a forerunner of high water, poor fruit crop and a poor yield of oats sown in March.

Barnes' circus agents were through this section Monday putting up posters.

Lyman Small is working for the Linnhaven Orchard Co.

Mrs Jennie Lovejoy failed to put in her appearance at home last week as she promised, as her boss would not give her up. Business too rushing.

The Pie Eater has a fine farm of 130 acres for sale at \$100 per acre; 100 acres in farm, 10 acres in orchard, peach, apple and berries; 30 acres in pasture; plenty of spring water. Good house and barn, several nice out buildings. Call on the old man, he will show you the place.

The Reason Fewer People Take "Salts"

We find the use of salts and other harsh physics is becoming less every year because more and more people are using Rexall Orderlies, which we firmly believe to be the best bowel remedy ever made. They taste so much like candy that even the children like them. At the same time they act so easily and naturally that there is no purging, griping or pain. They promptly remove the constipation and by soothing and strengthening the bowels, make it less liable to occur again. We have the utmost faith in them. We know what they are made of and the pleasant, beneficial results that always follow their use.

You needn't take our word for it. If Rexall Orderlies don't help you—if they don't entirely relieve all your bowel troubles—come back and tell us and we'll give back your money. In vest pocket tin boxes; 10c, 25c, 50c.

You can buy Rexall Orderlies at the Rexall Stores and in this town only of us.—E C Peery, Scio, Ore.

SHELBURN ITEMS

The farm owned by Hogan and O'Brien of Albany a mile north of here was recently sold to a Mr Porter.

Mr and Mrs U H McLain were guests at the Geo Platt home Sunday.

Miss Frieda Steidel returned home last Thursday from Nashville where she had been working for some time.

Mrs Claude Chnrhill has been critically ill the past week.

Miss Iva Shilling is working at Claude Churchills this week.

H O Shilling made a business trip to Albany Saturday.

Herbert Blatchford of Albany spent Sunday with relatives of this place.

Rev J Ed Blair was entertained at the Miller home Sunday.

Mr Porter and family moved into the old Fitzgerald property recently where they will live until fall.

I Hoagland recently purchased a Buick automobile.

Mr Shilling received a message Tuesday stating that his son Virgil had broken a leg while working about five miles above Scio.

Ralph Mc Donald is preparing a school program to be given at the end of school.

Straight at It.

There is no use of our beating around the bush. We might as well out with it flims as last. We want you to try Chamberlain's Cough Remedy the next time you have a cough or cold. There is no reason so far as we can see why you should not do so. This preparation by its remarkable cures has gained a world wide reputation and people everywhere speak of it in the highest terms of praise. It is for sale by all dealers.

The Oregon Silo people have just erected a silo for H E Mul-len 12 miles west of Sanderson bridge. Those interested in a silo will do well to look at same before buying.—E H Holloway, Agent, Albany, Oregon. 40

Found a Cure for Rheumatism

"I suffered with rheumatism for two years and could not get my hand to my mouth for that length of time," writes Lee L Chapman, Mapleton Iowa. "I suffered terrible pain so I could not sleep or be still at night. Five years ago I began using Chamberlain's Liniment and in two months I was well and have not suffered with rheumatism since." For sale by all dealers.

J F Kukacka has traded his town home for Wm Reed's 208 acre farm 3 miles south of town and each will give possession October 1. Mr Kukacka will not move to the farm, but will stay in town and retain his interest in the planing mill.

Cough Medicine for Children

Too much care cannot be used in selecting a cough medicine for children. It should be pleasant to take, contain no harmful substance and be most effective. Chamberlain's Cough Remedy meets these requirements and is a favorite with the mothers of young children everywhere. For sale by all dealers.

All the latest lasts in shoes on display at Weselvs.

Don't pay out money for magazines. We can give you four monthly magazines for 18 cents extra if you will subscribe to The News for one year.

Why not spend Sunday evening at the picture show? First class films, good music and admission price 15c and 10c. Show starts at 8:00 sharp.

COLDNESS OF ICE.

It Depends Upon the Temperature of the Surrounding Air.

Is ice colder in winter than it is in summer? Many persons suppose not. To the unthinking ice is ice and cannot be any colder or warmer. Try it and see. Take a thermometer and bury it in a large cake of ice in summer or in a house where summer temperature obtains. It will indicate 32 degrees. This is not under all circumstances the freezing point of water.

Under normal conditions when the temperature of the air is hovering about 32 degrees for several hours the formation of ice may begin at that exact degree on the thermometer. On the other hand, a bucket of water exposed during the oncoming of a cold wave may not show a thin film of ice for sometimes an hour or more after the mercury has passed below the 32 degree mark.

But 32 degrees is the temperature of melting ice. If a piece of ice be thrown into boiling water and left there until it is almost gone, the small particle extracted will still be at 32 degrees. Ice can never be got above that temperature.

Mixing salt with ice makes it much colder. This is illustrated in the making of ice cream. The ice in the freezer goes down to near zero.

But while ice never can be warmed above 32 degrees it will become chilled as much below that point as the surrounding atmosphere does.

Ice will cool down like anything else on a cold night to zero or below. What should prevent it? On a day when it is just freezing temperature a block of iron and a cake of ice in the open air will stand at 32 degrees. If the weather becomes warmer the iron will warm up with the weather, but the temperature of the ice will remain at 32, although in the bulk it may diminish appreciably in the melting process. But with a falling temperature the iron and the ice will become colder, too, and the one just as much as the other.

As the ice grows colder it becomes harder and more brittle. This fact is observed by skaters on the ice on a clear night when the thermometer stands at 10 degrees

above zero or lower. They realize there is something out of gear when they cannot with ease and grace describe the figure 8 or the "hickory bend," as it is called in the country. The ice has become too brittle and chips.

Those who have been in the arctic regions tell us that water thrown on the ice there will shiver it like pouring boiling water upon cold glass, the ice being so much colder there than the water.—New York Press.

Barley Pudding.

When making barley water for invalids do not throw the barley away after it is strained off, but with the following ingredients make it into a pudding, which will be both delicious and nutritious: Half fill a pie dish with the barley, add two tablespoonfuls of brown sugar and two ounces of currants. Beat one egg and one gill of milk; pour over barley, etc., and stir all together. Sprinkle over a little finely chopped suet grated and a little nutmeg and bake one hour in a hot oven. This is a very wholesome pudding for children.—Detroit Free Press.

A Good Definition.

A foreign journal says that a small boy who had been playing nearly all day with a newly arrived acquaintance of the family, a gentleman who had nearly reached his fiftieth year, said to his father when the gentleman had gone away:

"When will that young man come again?"

"Young man!" exclaimed the father. "He's older than I am! Will you please tell me what 'a young man' means to you?"

"Why, a young man," answered the boy—"a young man is one that has a good time!"

Lafayette.

When General Lafayette visited America in 1824 he was sixty-seven years old. He returned to his home Sept. 28, 1825, after having been the guest of the United States for more than a year. He sailed from these shores on the Brandywine, a frigate named in honor of the battlefield of Brandywine, where General Lafayette had been wounded forty-eight years before.—Magazine of American History.

The Intruder.

Sir Arthur Sullivan of the famous Gilbert and Sullivan combination loved to hang about the back of the dress circle a few nights after his first performance. One night he was rather taken with one of his tunes and started humming the melody, when an angry patron cried out: "Silence! I came here to hear Sullivan's music, not yours."

Humor From the Judge.

"A solicitor's bill is like a builder's," said the magistrate at Woolwich police court. "When first you look at it you think you have been robbed, but when you go through it carefully you feel sure you have."—London Mail.

Turquoises and the Mongols.

Turquoises are the favorite stones of all the Mongol races and are generally worn in their original state except by the Chinese women, who have them roughly cut and wear them mixed with pearls and coral. Both the Tibetan men and women ornament themselves with lump turquoises, the men wearing them attached to their single gold earrings, which are worn in the right ear only.

The Word "Execute."

To "execute" means "to carry out or to perform." The law, for example, may be "executed" on a prisoner. But to say that the prisoner is "executed" is a blunder as inexecutable as it is frequent. The sentence is executed. But the man himself is killed, not "executed."

The Oldest Newspapers.

The Swedish Official Gazette, the oldest newspaper in Europe, is centuries behind (or ahead of) its Chinese rivals. The Peking Gazette, containing official news, has appeared regularly since the days of the Tang dynasty, which finished in the year 905, and the monthly Peking News, now a yellow octavo book of twenty-four pages, is said to have been founded early in the sixth century.

A Story a Day

A story a day for the 365 day of 1914—that is what you get by subscribing \$2 for the Youth's Companion's new volume. The fifty-two weekly issues of the Companion will contain at least 365 stories, and all other kinds of good reading that can be crowded between two covers—the best advice on athletics for boys, articles on dress and recreations for girls, contributions by famous men and women, suggestions for the care of the health, etc.

For the year's subscription of \$2 there is included a copy of the Companion Practical Home Calendar for 1914, and all the issues for the remaining weeks of this year, dating from the time the subscription is received.

If you want to know more about the Companion before subscribing, send for sample copies containing the opening chapters of Arthur Stanwood Pier's fine serial of life in a boys' school—"His Father's Son." With them we will send the full announcement for 1914.

Look to Your Plumbing

You know what happens in a house in which the plumbing is in poor condition—everybody in the house is liable to contract typhoid or some other fever. The digestive organs perform the same functions in the human body as the plumbing does for the house and they should be kept in first class condition all the time. If you have any trouble with your digestion take Chamberlain's Tablets and you are certain to get relief. For sale by all dealers.

Ladies Calling Cards printed or blank for sale at this office.
