farmers that they have experienced for years.

Fred Brewster, our efficient road supervisor, is doing some good work on the roads using the steel drag, smoothing off the roads, filling up the holes, and from the expression of satisfaction on the part of the farmers, it is a very satisfactory way to repair the roads. If the road bosses in the other districts would endeavor to repair some of the bad places in the roads that can be fixed with but little expense, their neighbors and the public in general would no doubt appreciate it, but as it is and has been, what can you expect?
