The Water Spider.
A fine covering of hair protects the water spider, and even if it is submerged in the water it is never really wet. The hair keeps a layer of air between its body and the water. It looks like a white pearl when below the surface. The scientific name of this curious insect is the Vela currens.

Twisted.
A foreigner meeting an American friend said to him, "How are you?" The latter replied, "Out of sight!" The man considered this very clever and decided to use the expression on the next occasion. Shortly after he was met by a friend who asked, "How are you?" With visible pride he answered, "You don't see me."—Chicago News.
