Matt Loberger Dead

The peculiar actions of a horse left tied to a tree near the little cabin, led to the discovery of the death of Matt Loberger, age 65, a Bohemian who resided on 20 acres of land one mile west of Scio, says the Albany Democrat. Loberger is believed to have been dead three days before neighbors were attracted by the actions of the horse, which had been tied to the tree for that length of time.

Peering in at the window, the investigators saw the prostrated form of Loberger in night clothes lying face down on the floor. Coroner Fortmiller of Albany was notified and went to the scene Sunday. After an investigation in company with Dr A G Prill of Scio, he decided that death was due to apoplexy, that the deceased had arisen in the night when he was overcome. As far as is known Loberger had no relatives in this section, but it is believed he has a son in Nebraska. He was a member of the W O W. The funeral was held Sunday afternoon at Scio.
