We desire to thank those good people who gave toward the beautiful clock that was presented to us Tuesday, June 30, by Misses Cleora Shelton and Christine Shindler. We prize it very much, but more than that do we prize the friendship and good will that is behind the gift, and should we never have the opportunity to return the kindness to you may you, sometime, somewhere, be able to make some other heart glad by our service.

Church Services

The services at the Church of Christ were attended by a small but very appreciative crowd both Sunday morning and evening. Let all the members of the church be there next preaching Sunday, which is the second Sunday in July, for how can we expect to interest other people when the members themselves won't come. We cordially invite everybody to the services.

Subjects for the 2nd Sunday in July: In the morning, "Seven Biggest Fools in Scio;" evening, "When the Devil goes to Church."

The revival at Kingston is at the height of interest. Rev. Fagan is one of the most convincing speakers we have ever heard. He is not afraid to hit the devil at every opportunity. Thirteen added to the Lord so far. Come and help us in this campaign for Christ and the right.

V K Allison, Minister.

Save Your Grain

Experience proves that many of the large threshers waste too much grain. You work hard to grow and harvest your crop and you cannot afford to waste it. Don't divide your profits with the straw pile. Every bushel that goes there is money right out of your pocket.

BUY A STERLING THRESHER and save your grain and thresh bill. With a Sterling thresher and an I H C oil engine mounted together on the same truck, you have an ideal threshing outfit, being always lined up and set ready for operation. The outfit can be started in a moment.

Most up-to-date farmers are beginning to realize that the day of the large threshing outfit is passing, and that a small thresher is as necessary on a farm as a binder.

If you are interested in saving your grain, and threshing it when you want it threshed, call and look one of these outfits over. Write for a catalogue which explains the machine in detail.

We also have the Famous Deering Line of Machinery. Give us a call. We will be glad to show these machines.
