

LETTERS FROM OUR COUNTRY CORRESPONDENTS

S. W. Gaines at
Breitenbush

September 7:—The springs are now in full bloom with some 50 people on the ground, and all seem to be making good use of the waters. We had a fine rain last night and today which has subdued all the forest fires and the fire men, about 40 in number, returned to the springs today and some went on to Detroit. The government surveyors are camped four miles south of here, surveying the country into townships and cruising the timber which is no small job, but they are getting along fine. They have a rough country to survey over.

Our crowd is all upside down as M. C. Gaines and wife are wild to return home after being here only four days, and are so homesick they intend to walk out tomorrow as the pack train failed to arrive. I guess we will have to give them up for the remainder of the two weeks when we will follow suit head and tail up and nose full of hot steam equal to a buffalo bull going up hill on a lope.

Mr. Editor, we highly appreciated the News as it was read by all and chewed as fine as worm dust to get the real merits or every word and thank you kindly for your remembrance of us poor devils.

Fishing is fine with the river full of nice trout, but they all fail to bring in any of the speckled meat.

Some improvements in the last two years around the spring with strong talk of a new road by Dr. Skiff who has a fine little saw mill now in operation with a stock of logs on hand. He intends to have a new hotel, twenty box cabins. He will also have a new pack train to accommodate the public on time, so it will soon be a pleasure to come to the springs.

Prohibition Doomed!

After 64 years of activity by the friends of prohibition the average American today consumes almost six times as much liquors as did the average American of 1850. In spite of this there is less drunkenness. With this wonderful change for the better, prohibition has had nothing whatever to do. The real reason is found in the fact that today there is a vastly greater amount of beer consumed. And beer is not conducive to drunkenness.

Prohibition is a failure and has had but one effect wherever tried: to put a ban upon the open and above-board drinking of beer and other light beverages and to drive men to secret, immoderate drinking of the strongest stimulants. This is notably true of Maine, a prohibition state. There is ten times as much drunkenness per capita as there is in France.
