

Where Do They Get The Money?

A farmer raised a sack of potatoes which he took to town and sold to a wholesale merchant. The wholesaler paid him 50c for them. A retail merchant bought the potatoes of the wholesaler, who charged him 65c, thus the retailer paid the farmer's 50c, and a profit to the wholesaler of 15c. The retailer sold them to a restaurant man for \$1.00, the restaurant man paying the 50c the farmer received, the 15c the wholesaler's profit, and the 35c profit to the retailer. The banker came in for dinner and the restaurant man served potatoes from this sack, charging the banker what the potatoes cost him and a little profit, so the banker was stuck for the whole thing; the 50c to the farmer, 15c to the wholesaler, 35c to the retailer and the restaurant man's profit. But the banker was a shrewd guy, and when the clothing man came in to get a loan he figured this meal in with other expenses and charged it up to him in interest, so you see the clothier had to pay the 50c to the farmer, 15c to the wholesaler, 35c to the retailer, the restaurant man's profit and the banker's profit as well. A few days later the farmer got his pants caught on a barbed wire fence and tore them from ear to ear.

Who paid for the potatoes? The farmer, upon realizing the predicament he was in, went to the clothier and when informed the price of a new pair of pants found that in addition to the original cost, rent, clerk hire, taxes, water, light and a thousand other things, was the interest on the note to the bank and he was compelled to pay the banker's profit and for his dinner, which included the restaurant man's profit, the retailer's 35c, the wholesaler's 15c, and his own 50c, so he put in another acre that he might be able to feed them all.

It has been suggested that the farmers have no right to butt in to our city affairs and try to tell us what to do. Well, if they haven't, who in the world has? Don't they furnish three-fourths of the money to build the town? Don't they pay for nearly all of the improvements? Don't they pay for the fine homes and fine clothes that the city people have? Now, I can just imagine hearing some smart guys say—what a lie! The city people pay the farmers for their product and that is what keeps them, they wouldn't starve if it was not for the people in town. SAY, WHERE DO THE CITY PEOPLE GET THE MONEY WITH WHICH THEY BUY THE FARMERS' PRODUCT?

SANTIAM FARM TOPICS

Miller Curl, an old timer of this section, is now visiting old friends and relatives.

The good neighbors volunteered and hauled up to William Smith some ten cords of nice wood, as Billy is in very poor health.

Mrs. Clara Griffin, who has been quite ill with nervous prostration, is now on the mend as she is now able to sit up part of the day.

Mr. C. Gaines has sent to the Salem tile factory for some thousand feet of six-inch and 1000 feet of three-inch tiling, and is now hauling with his teams.

Frank Smith and wife of Aberdeen, Wash., was down and spent the night Thursday with his father, William Smith, and called on G. L. Sutherland Friday for a long talk on Farmer Union organization.

Mr. Kalina has his new house completed which is nice and helps the looks of his fine farm.

S. W. Gaines and wife drove over to Albany Monday afternoon to visit with Mrs. Rebecca Morris, a sister of Mrs. Gaines, returning home Tuesday afternoon. They found Albany very much interested in the election.

PIE EATER.

What Would You Do?

There are many times when one man questions another's actions and motives. Men act differently under different circumstances. The question is, what would you do right now if you had a severe cold? Could you do better than to take Chamberlain's cough remedy? It is highly recommended by people who have used it for years and know its value. Mrs. O. E. Sargent, Peru, Ind., says, "Chamberlain's cough remedy is worth its weight in gold and I take pleasure in recommending it." For sale by all dealers.

POLITICAL ANNOUNCEMENTS

All political cards under this heading are paid advertisements

Ed Schoel

Democratic Candidate For Sheriff of Linn County
Strict Enforcement of the Law
Without Fear or Favor
Efficiency and Economy in Office
Justice to All

Frederick Hollister

Democratic Nominee for
REPRESENTATIVE IN CONGRESS
FIRST DISTRICT
I favor the building of a Merchant Marine equal to that of any Nation in the world, and if elected will work with that end in view.

Walter M. Eaton

Democratic Nominee
County Surveyor
For Linn County
PLATFORM:

Strict attention to all county business. Only matured recommendations to be delivered on all technical matters affecting county improvements. Road viewing to be regarded as a serious concern, vitally affecting the best interests of the community. I promise that the office of the county surveyor shall be kept open on all working days and the records accessible to public inspection. The records themselves kept up to date. All calls from private parties will be answered promptly and results furnished clients in the shortest time consistent with good work.

TRAINING AND EXPERIENCE

Graduate Engineer in Civil and Mining. Two years in Government service. Three years in County and Municipal work. Two years in Mineral Land surveying and road building in Lane County, Oregon. Two years in general surveying in Linn County as member of the firm of Penland & Eaton, Consulting Engineers, Albany, Oregon.

CHARLES CHILDS

If you believe in lower taxes; the repeal of the law providing for the present method of tax collecting; a permanent constitutional registration law and more common sense and less red tape in legislative matters; vote for Charles Childs for Representative. As a member of the last house Mr. Childs voted against extravagant appropriation bills and against raising the salaries of public officials.

He introduced and was successful in passing a bill fixing a standard for condensed milk which enables smaller condenseries to compete with larger concerns. The Scio condensed milk plant was shut down at the time the law was passed but has been running ever since.

Mr. Childs has made a good record and should be re-elected.
Vote 62 X Charles Childs.

Bargain day subscriptions for the Evening Telegram taken at this office, until Dec 31, \$3.50.

Vote to Save Industrial Oregon

VOTE "NO" 329 AND "NO" 331

The very life of the future manufacturing and industrial progress of Oregon hinges upon the defeat of the so-called "Water Front" bills, to be voted on Tuesday, November 3rd.

So cunningly and adroitly are these bills worded there is grave danger that many people will be deceived.

If these measures become laws the result will be that the State will take title to the tidelands and submerged lands and will be prohibited from selling any of these lands. They can only be leased for docks. No more ship-yards, saw-mills, canneries or other plants requiring access to deep water—nothing but docks, docks, docks.

Every citizen of Oregon—wage earner, farmer, business man or woman, wants to prosper. These measures if enacted will throttle progress at the gate. Investors will shun Oregon. This means no work for the wage earner, nothing to pay the store-keeper with and therefore nothing to pass on to the farmer or producer. Let no one think these bills do not concern him.

Before you go into the booth to vote, read 329 and 331 carefully. Talk to your neighbors about them.

Oregon is rich in natural resources, but poor in development. What the state needs above everything else is outside money to come in and develop its resources. That means GOOD WAGES, PLENTY OF WORK, GOOD PRICES and GOOD TIMES.

This is not a political question; it concerns only the prosperity of Oregon and of you.

Give Progress and Good Times a helping hand by voting "NO" 329 and "NO" 331.
