A WASHER AND STERILIZER

The Patented U. S. Mechanical Washer and Sterilizer Saves Hours of Time

WITH
EVERY
NEW

THE
UNITED STATES
CREAM SEPARATOR

The U S Mechanical Washer is a marvelous cleaner. It is a marvelous sterilizer. In a year this Washer actually saves days of time over other ways of washing skimming devices.

The U S has the only cream separator bowl that can be successfully washed, rinsed and sterilized mechanically, for the following reasons.

It has the only bowl through which the water can be driven with such tremendous force that its cleaning power is superior to hand washing, and lots quicker and easier.

The U S Separator has the only skimmer built of solid Nickel Silver sections. They always remain smooth and non-adhesive.

You could not wash a silver platter any cleaner in the dish pan than you can the Nickel Silver skimming sections in the patented Mechanical Washer.

Mr Elmer Nixon, Victory, Wis., says, "The new washing device is a dandy. Mrs Nixon declares that washing the separator is now a pleasure and with the new Washer the U S can be washed in one third the time required to wash any other separator."

Why not buy the most improved separator—the U S? You will use it twice a day for the next ten years.

Old separators taken in trade. A demonstration of the U S gladly given at your home, without obligation.

Madame if your husband is like most men he expects you to look after the health of yourself and children. Coughs and colds are most likely to lead to serious diseases. A child is much more likely to contract diphtheria or scarlet fever when it has a cold. If you will inquire into the merits of the various remedies that are recommended for coughs and colds, you will find that Chamberlain's Cough Remedy stands high in the estimation of people who use it. It is prompt and effectual, pleasant to take, whice are qualities especially to be desired when a medicine is intended for children. For sale by all dealers.
