Incorrectly prescribed glasses increase eye strain, deform the eyes, and make of your later years a time of permanently dimmed vision. Such glasses are common enough, but are eye destroyers and the product of inexperienced opticians. On the other hand, correctly prescribed glasses save the eyes from strain, increase their usefulness and for you, if you wear them the day of dimmed vision may never arrive. Such glasses are eye builders and are prescribed by long experienced eye specialists. Dr Lowe and Turner have had years of hard experience as exclusive eye specialists. There is no side line, for they devote their entire time, energy and effort exclusively to the eye, coupled with their being educated in the best schools and their many years experience makes them safe persons for you to consult. Consult them at Scio Hotel Saturday April 17, until 3 p m only. Stayton, Friday April 15th. Remember the date, Wait for them.

YOUR SUBSCRIPTION EXPIRES on the date stamped in the space below. To those who pay promptly in advance the subscription price is \$1.25 per year. The price is \$1.50 if paid at end of year. The paper is not sent to subscribers who are more than one year in arrears.

Let every one bear in mind that the future welfare and prosperity of Scio now hangs in the balance. We can give it an impetus forward tomorrow if we will. A new school house is of vital importance to the future growth and prosperity. Shall the building of a house be defeated simply because each one cannot have his way.
