Will be N. I. Morrison's Big Sales Day

On all purchases I will allow a 10 per cent discount from regular price on every thing except nails, wire and wire goods, also on future orders for machinery. On that date will be the time to buy your Paint, Farm Machinery Ranges—in fact everything except as stated above.

On that date, beginning at 1:30 sharp, all boys and girls 15 years and under that come to my store will receive a free ticket to the Movies. There will be five full reels of films.

Every person over 15 years who makes a purchase at our place of business, no matter what, a package of needles or a threshing machine, will be given a free ticket to the show. Boys and girls, I want 500 of you. Come and bring your parents and have a good time; parents come and bring the kids and give them a good time.

All parties paying their accounts on that day will receive a ticket free to the show. Come and make the day one to be remembered. There will be two performances in the afternoon exclusively to out of town people and one in the evening for the town people.

We will also have a 25c and 50c Aluminum assortment. 3-quart kettle and cap for 50c. You will be surprised at the bargains in Aluminum ware and a ticket will be given with each purchase. Sale on Aluminum will commence at 11 o'clock and not before so as to give out of town people a chance to get in on it.

Everybody come, don't forget the day. All boys and girls from out of town be at my store at 1 o'clock sharp and get your tickets. Boys and girls in town be here at 7 o'clock in the evening and get your tickets. No one will be admitted without a ticket.

Eighty Men Wanted

Eighty men are wanted who have \$50 or will give \$50 or \$100 in ten monthly payments of \$5 each, to whom will be issued ten \$5 coupons, bearing 6 per cent interest until all are paid, for the purpose of building and equipping a first class Hospital in Scio, Oregon, to be under the control and management of a board of directors selected from the stock holders who finance the Institution. This call is made to any one who desires to help build and furnish completely a hospital building in Scio, with operating table, and all sanitary equipment and conveniences for caring for the sick and those who may have to undergo an operation. This hospital building will be free and at the service of any reputable physician or surgeon, whom any patient may wish to employ.

The need of such a building and equipment is certainly cognizant to all the people in the Forks of the Santiam, not only from an economic view, but the advantage it would offer in having the right kind of attention by trained, nurses and skilled physicians when serious sickness overtakes us. It is a very common occurrence for people in the vicinity of Scio to have to be taken to Portland, Salem or Albany hospitals to undergo an operation, which is always expensive and could be attended to at home with much less expense. If there was a place to be had and furnished, so they could receive proper care and treatment. It certainly is to every body's interest to help and boost this building in Scio and see that this is done. Remember this building is not to be built for Dr Prill or Dr Hobson or any other doctor, but for a general public Utility building and any reputable physician will have as much right and use of it as another in treating his patients.

You will find these subscription coupons at Dr Prill's office, call in and fill out one; only \$5 monthly payments for ten months. Call in and see Dr Prill who will explain in detail, the plan and purpose of this Hospital building.

Hoping to see this move triumphant, I am, yours for its success, and the interest of the general public health and benefit.

What Constitutes Civilization

Closing stores and places of business at night gives a town a dead deserted look.

In a chicken yard nothing is moving after dark, except the rats and other vermin.

Closing theatres and other places on Sunday makes a town seem like a cemetery.

Empty streets and no one moving about—all in the country or at home asleep—kills all values.

Stopping people spending money and making fools of themselves, is a sure way to put a community on the bum.

Laws and ordinances to that effect deprive about half the people of the incentive to live—a strange fact.

It has not yet been determined whether folly, luxury, extravagance produce civilization or vice versa.

One thing is certain—if we only bought necessities of life to eat and wear about half the business of the world would stop.

Millinery stores, tobacco shops, ice-cream parlors, high-heeled shoes, high-priced hotels, parlor cars and X-Ray gowns would go.

The arc-light, fast trains, show-windows, movies and living beauty displays would go.

Those who preach and write against these manifestations of civilization are harking back to barbarism.

We could all wear overalls, eat beans and graham bread, saw our own wood and drink rain water, but we would kill arts, industries and civilization.—Pacific Coast Manufacturer.

Stomach Trouble Cured.

Mrs H G Cleveland, Arnold, Pa., writes. "For some time I suffered from stomach trouble. I would have sour stomach and feel bloated after eating. Nothing benefited me until I got Chamberlain's Tablets. After taking two bottles of them I was cured." For sale by all dealers.

I have taken over R L DeVaney's grain buying at this place and am in the market for grain of all kinds. See me before selling. R T Smith.

Rheumatic Pains Relieved

Why suffer from rheumatism when relief may be had at so small a cost? Mrs Elmer Hatch, Peru, Ind., writes, "I have been subject to attacks of rheumatism for years. Chamberlain's Liniment always relieves me immediately and I take pleasure in recommending it to others." 25 and 50 cents bottles. For sale by all dealers.

Egypt Made First Pens.

Pens were first made in Egypt and were made of a kind of reed. The ancients did not seem to know that good pens could be made from goose quills. One Isidore, who died in 636, mentions both reeds and feathers as suitable pens. Swan quills as being even better than goose quills were referred to in 1520. Steel pens were invented in the first part of the nineteenth century. People were slow to use them, because the metal was not sufficiently elastic. Perry cut slits in steel pens in 1830, and that settled goose quills.

Raids of the Tuareks.

It is their curious social life which forces the Tuareks, living in the Sahara back of Tripoli, to raid caravans. The mother has all the rights over the children, and all the property is in the hands of the women. To marry a wife a Tuarek must pay a large sum to the bride and her mother, and the only way to get the necessary wealth is a successful raid, for the male Tuarek's ordinary occupation—camel farming and carrying loads for traders—gets him hardly enough profit to live by.
