

# THE UNITED STATES CREAM SEPARATOR

# SKIMS NATURE'S WAY

Cream to the top, skim milk to the bottom, both in their NATURAL COURSE, as when milk is set in crock or pan—that is Nature's way, and Nature has not made a mistake.

The UNITED STATES SEPARATOR bowl excels because, differing from other separator bowls, it is built to SKIM NATURE'S WAY, by producing cream from the top, skim milk from the bottom.

The U. S. way is Nature's way so intensified and hastened by mechanical force that cream of finest known quality and closest skimming are the results.

The UNITED STATES bowl has a patented construction that applies mechanical force so perfectly that the cream globules, which compose the delicate part of the milk, are protected as by Nature's way when she sends cream gently to the top, the skim milk settling to the bottom.

This is why cream made by the United States Separator is noted far and wide for its smooth, long-keeping quality.

All other cream separator constructions so operate that they lose to greater or lesser degree the advantages of Nature's ideal principle.

Their wrong constructions produce cross currents that not only obstruct free passage of the cream, but mix and remix it with the separated milk. The result is poorer cream and less cream.

The United States Cream Separator keeps the milk and cream entirely apart from the instant separation begins.

Constructed on this plan, the United States separator makes a cleaner extraction of cream.

THE UNITED STATES CREAM SEPARATOR HOLDS THE WORLD'S RECORD FOR CLOSEST SKIMMING IN THE GREATEST SEPARATOR CONTEST EVER HELD.

We have never heard of anybody improving on Nature, by opposing her plans, have you.

Prof Asa. Hiron and Miss Gray will close their school at Gates with a program Friday.

A member of the school board said that Asa and Miss Grey can have the school next year if they wish. They have conducted the school with credit to themselves, the board and the district.

Mr Olinhauser while working at the lumbering camp was struck by a falling limb and rendered unconscious for two or three days. Dr Ransom says he

has hopes that Mr O will recover both mentally and physically.

Saturday, the 24th inst, Pete Wolfe was struck by a falling tree and killed instantly. A passing pulley block was fastened to a hemlock tree, a wire attached to the donkey engine at one end and a log at the other end pulled the tree over on Pete and knocked down two other men. Pete was buried Monday in the Kings Prairie cemetery beside his brother Cliff who was killed by a falling limb a few years back. A very large crowd of people were at the funeral.

Co Surveyor Geddes came up recently and relocated the county road from Gates to Mad Creek.

Co Supt Jackson and Prof Harrington held successful school fair meetings at Gates and Mill City. They made interesting speeches at both places and Prof Harrington presented pictures of work being done by

various boys and girls. They called at the Geddes ranch, J R and Harrington knew each other in Minnesota 35 years ago.

The I O O F lodge of Mill City rendered a successful program anniversary day.

Delbert Hill has returned from the San Diego and San Francisco fairs. He says everybody ought to go that can.

Ranchers are accumulating fine stock. Mr Milke received two blooded calves recently and Bert Turnidge paid 80 dollars for a yearling from the Waldo Hill country.

A sharp boy can get freak animals enough up here to start a ten cent circus. Mr Anderson has a calf born without any tail. The Carter brothers have a calf that has no eyes nor eye formation where the eyes ought to be. Chris Mulkey of Mehama has two calves without fore legs. One can stand up like a man. The Ringlings, when boys, started in the show business with a half dozen curious things.
