KNOW THY COUNTRY

I—Introductory

"Know America" is a slogan that
should ring out from every school
room, office, farm and shop in this na-
tion. No man can aspire to a higher
honor than to become a capable citi-
zen, and no one can merit so distin-
guished a title until he is well in-
formed of the resources, possibilities
and achievements of our country.

This is a commercial age and civ-
ilization is bearing its most golden
fruit in America. We are noted for
our industrial achievements as Egypt
was noted for her pyramids; Jerusa-
lem for her religion; Greece for her
art; Phoenicia for her fleets; Chaldea
for her astronomy and Rome for her
laws. Likewise we have men who will
go down in the world's history as pow-
erful products of their age. For, stand-
ing at the source of every gigantic
movement that sways civilization is a
great man. The greatest minds travel
in the greatest direction and the com-
mercial geniuses of this age would
have been the sculptors, poets, philo-
sophers, architects, and artists of
earlier civilizations.

As Michael Angelo took a rock and
with a chisel hewed it into the image
of an angel that ever beckons man-
kind upward and onward, Hill took
the desert of the Northwest and with
hands of steel made it blossom like a
rose, dotted the valleys with happy
homes and built cities in waste places.

As Gutenberg took blocks of wood
and whittled them into an alphabet
and made a printing press that
flashed education across the con-
tinent like a ray of light upon
a new born world, McCormick took

a bar of iron and bent it into
a reaper and with one sweep of
his magic mind broke the shackles
that enslaved labor of generations yet
unborn, and gave mankind freedom
from drudgery, and lifted the human
race into a higher zone of life.

As Nelson organized the English navy
and made England mistress of the sea,
enabling the British Isles to plant her
flag upon every continent washed by
the ocean's waves, and to make foot-
stools of the islands of every water,
Morgan organized a banking system
that has made America master of the
world's finances, brought Kings to our
cashier's windows, the nations of the
earth to our discount desks and placed
under the industries of this nation a
financial system as solid as the Rock
of Gibraltar.

There is no study quite so interest-
ing as progress, no sound so magic
as the roar of industry and no sight
so inspiring as civilization in action.
A full realization of America's part in
the great events of the world past,
present and future will thrill every
human heart with pride, patriotism
and faith in Republican institutions.

Through the courtesy of the Agri-
cultural and Commercial Press Ser-
vice, the readers of this paper will be
permitted to study America; her agri-
cultural, manufacturing and min-
eral development, mercantile, bank-
ing and transportation systems which
are the wonder of the world. The
first article of the series will deal
with transportation and will appear
at an early date.

Best Thing for a Bilious Attack.

"On account of my confinement in
the printing office I have for years
been a chronic sufferer from indiges-
tion and liver trouble. A few weeks
ago I had an attack that was so se-
vere that I was not able to go to the
case for two days. Failing to get any
relief from any other treatment, I
took three of Chamberlain's Tablets
and the next day I felt like a new
man," writes H. C. Bailey, Editor
Carolina News, Chapin, S. C. Obtain-
able everywhere.

Lame Back.

Lame back is usually due to rheu-
matism of the muscles of the back.
Hard working people are most likely
to suffer from it. Relief may be had
by massaging the back with Cham-
berlain's Liniment two or three times
a day. Try it. Obtainable every-
where.
