**SYNOPSIS**

George Drew, a speculator, is trying to cheat Elbert Rogers out of his farm, upon which a vein of iron ore has been found that would make the Rogeres millionaires. Mr Rogers, a simple, honest farmer, is attached to the place and doesn't want to sell. Mrs Rogers, however, ignorant of the iron ore, is determined to sell and spend the money in travel. Esmeralda, the daughter, is in love with a country lad, Dave Hardy, but the mother is determined to break up the match. The Rogeres finally sell a portion of the farm to be worked on shares, and they themselves go to Europe. Mrs Rogers pushes Esmeralda into society and a Marquis proposes to her. Dave Hardy, poor and heartbroken, has followed Esmeralda to Europe and then comes the news that the iron ore is in Dave Hardy's farm instead of the Rogeres. Dave Hardy turns out to be a millionaire and Esmeralda marries him.

**Bilious Attacks**

When you have a bilious attack your liver fails to perform its functions. You become constipated. The food you eat ferments in your stomach instead of digesting. This inflames the stomach and causes nausea, vomiting and a terrible headache. Take Chamberlains tablets. They will tone up your liver, clean out your stomach and you will soon be as well as ever. They only cost a quarter. Obtainable everywhere.

When in need of printing give the News office a call. First class work and prices right. We make a specialty of letter heads, envelopes, statements, bill heads, sale bills, business cards, ladies calling cards, and in fact commercial printing of all kinds.

**Restored to Good Health**

"I was sick for four years with stomach trouble," writes Mrs Otto Ganz, Zanesville, Ohio. "I lost weight and felt so weak that I almost gave up hope of being cured. A friend told me about Chamberlains tablets, and since using two bottles of them I have been a well woman." Obtainable everywhere.

Rev Edward Blair preached the sermon, while the Odd Fellows lodges of Scio and Spring Valley took charge of the remains at the grave.

**PUT THE GOOD WORD LAST.**

And if You Can't Boost Your Neighbor Don't "Knock" Him.

Here's a little rule which will help you and help your neighbors: In speaking about anybody put the good word last. Don't say "Neighbor Jones is public spirited, I'll admit, but he is mighty high tempered." Say "Neighbor Jones is rather high tempered, of course, but he is a man who is helping the neighborhood forward." Don't say, "Tom Brown is a hard working fellow and good hearted, I reckon, but he has been mighty low down, wild and drinking." Instead say, "Tom Brown got pretty low once, wild and drinking, but now he's a hard working, good hearted citizen." In other words, wind up with the emphasis on the good trait rather than the bad one.

Or, better still, when you hear somebody's name mentioned and it's on the tip of your tongue to refer to some blunder or failing you know about, just try choking it down a few times, leaving it unsaid, and see if you don't feel better inside. Then next time go a little further and try speaking of some good deed he has done instead of mentioning the time he made a mistake (even though you yourself have never made any mistakes), and see if you don't feel happier still.

If the farmers in any neighborhood will begin to boost one another's worthy deeds they will soon find themselves living in a better neighborhood than ever before—and the fine part about it is that by adopting this method they will find themselves living in a better neighborhood without having to move from where they are!—Progressive Farmer.

**The Earthquake.**

In the tropics, particularly in Central America, it is wonderful how easily the residents become accustomed to earthquake shocks, which do not come, however, wholly without warning. You are sitting on a piazza on a hot afternoon chatting with your friends when suddenly the sky seems to grow hazy and the crows stop cawing. There is a general rush, and, though you may not know what is the matter, you cannot help feeling uneasy. The old natives say, "We're going to have a little shake," and then the house begins to rock, the tumblers fall off the table, you feel deathly sick at the stomach, and the thing is all over. The sky clears, the crows begin to scream, and things are soon righted.
