The two Lebanon papers are going after each other hammer and tongs and using a subscription contest manager for the goat. One of them has cut the subscription price in half. This looks too much like walking home to spite the railroad when you have a return ticket in your pocket.

At the home of Mr and Mrs A R McDonald of Thomas, are visiting Mrs Lyddia Robertson of Roseburg, Mrs Ester Brown of Missouri and Mr and Mrs George Wildfong of California, brother and sisters of Mrs McDonald. Although quite old they are all hale and hearty and are busy talking over childhood days and visiting with old friends and relatives. Mrs George Wildfong is a sister of uncle George Bilyeu.

N I Morrison wouldn't be handling the United States Cream Separator were it not a good one. Notice his attractive ad this week. The "makeup" of the United States cream separator advertisements this year is superfine, in keeping with both the reliable man who handles the goods and the superior quality of the article itself. Mr Morrison would like to show you a few things worth knowing about cream separators.

N Young received word recently from his son Charley, who is holding down a homestead in southern Oregon, that he had met with a painful and serious accident. While he and another man were digging a ditch the other fellow threw a large stone over his shoulder which struck a Mr Young in the face, breaking his nose and lacerating the flesh considerably. He writes, however, that he is now on the road to recovery and that the accident will not leave any noticeable scar.

W. E. Chrisman for Commissioner

W. E. Chrisman, who recently announced his candidacy for the nomination of county commissioner on the Republican ticket to succeed T J Butler, was in Scio Tuesday. Mr Chrisman is a prominent farmer and dairyman living a few miles northeast of Scio and stands high in this community. He was born and raised in this vicinity and has spent all his life here with the exception of a few years in Washington and Idaho. He says that if elected he will stand for economy and efficiency in all departments of the county business and will make a strong effort to see that the county gets value received for all money spent. It is estimated that two-fifths of the votes of the county are cast in the Forks of the Santiam, and this part of the county is certainly entitled to a commissioner.
