And what office do you want?

A funny man seldom sees any humor in his own product.

Just why is a mean man? But then only a mean man can tell.

Speaking of the weather reminds us that it continues to be just weather.

Even the buzzard, the lowliest of birds, is loyal to its home. Are you?

Yep, election time is trotting right along. It will soon be on the gallop.

Smile, and the world giggles with you. Scowl, and you are just a grouch.

Cheer up! At worst this life is just one blissful dream of things we never get.

A wise man ofttimes changes his mind. A fool has no mind to change.

"Push and Go" is bully in a kid, provided it doesn't require a push to make him go.

Tell every stranger that Scio is a good town. In time you may think so yourself.

There's a time for work and a time for play, but some of us forget to wind the clock.

High society finds a deal of comfort in the divorce courts. The press is lavish in its publicity.

No sister, not all men are beasts. There are times when the beast would object to the comparison.

Marriage is a sublime institution, but often the sublimity is left with the parson who ties the knot

When a member of Henry Ford's peace pilgrim party passes a worthless Confederate $5 bill on an ignorant European waiter and receives good money for his change, the average citizen will be pardoned for blushing for some of his countrymen and wondering who will pull off the next fool stunt to humiliate us in the eyes of the world.

DANDY HANDY UNITED STATES CREAM SEPARATOR

HAVING the *handy* things—and the things *handy*—will put a cheerful *grin* into what would otherwise be a gloomy *grind*.

DID you ever stop to think that taking a few less steps each day means saving many weary miles in life's long way.

THERE are about "forty-'leven" cream separators, according to "vital" statistics; but in my opinion, there's only *one* cream separator that is built with the express purpose of saving space, time, energy, steps and *temper*.

THE U. S. IS A CONVENIENT MACHINE

United States Cream Separators can be driven from either side. That's HANDY because it allows the machine to be set in any corner of the room.

United States Cream Separators take up little floor space, and the bases are all open. That makes them HANDY to clean under.

United States Cream Separators do not have to be started with hot water. You don't have to be told how HANDY that feature is.

United States Cream Separators have just a few parts in the skimming bowls, and these are cleansed, sterilized and dried in a Mechanical Washer. That certainly is HANDY when you consider the two-score-and-more parts which must be hand washed in the disc type of separators.

United States Cream Separators have self-draining bowls—and these are HANDY, for they save slopping and dropping, and strains on tired arms.

United States Cream Separators, with square supply cans, make it possible to place all parts to be washed in the square can, the whole being easy to carry under one arm, leaving the other free to carry the cream. That is so very HANDY that it saves two entire round trips between dairy and wash sink every day.

United States Cream Separators being always in gear, start instantly from any point, with no jerk or jump, and without any preliminary hand oiling. The oil feeds perfectly—even in the coldest weather, and that's HANDY too!

You Will Notice Many Other HANDY Points When Using the U. S. Separator.

IT WOULD BE HANDY FOR ME to leave a United States Cream Separator at your place next week. Let me know how much milk you want to skim each day and I'll figure out the size you need. Business is rushing! Don't put off ordering any longer.

No, our farmers will not be sowing tacks in the roads traveled by autos. They are buying cars instead.

There are two things a wise man never does but once—twist the cat's tail and tread on his wife's corns.

Now the brainless boobs are talking again about "corsets for men." Meaning, no boubt, the manless man.

Perseverance is an admirable trait, but without the safety valve of common sense it becomes a menace.

Hang onto your pennies boys. The growing scarcity of copper may some day put a premium on the little devils.

If the revolution in feminine attire continues its present speed even the fig leaf will soon be a back number.

The wise man buys his home paper. The foolish one borrows it from his neighbor and thereby advertises his lack of wisdom.

It is all right to accuse congress of hunting for pork, but we don't know of a political district in this neck o' the woods that won't grab off all of the bacon it can get.

When some people can't attract attention any other way they just get out in front of better folks and make a big noise, and the noise is about the only thing seen or heard.

Right now is a mighty good time to overhaul that farm machinery and polish it and oil it and get it to running smoothly and without a hitch or a break. The smoother and easier it works the more dividends it will earn during the summer's work.

Bought Fine Animal

The Yonder Lea stock farm, through their agent, M C Biggerstaff, has just sold to Louis Borovicka and A F Kraynik, the imported Percheron stallion, Hüraugh, Register No. 84813. He will make the season in the Richardson Gap neighborhood. Messrs. Borovicka and Kraynik are to be congratulated upon securing such a fine animal. They no doubt see the vast opportunities of the horse business in this country as all first class animals available are being shipped to the European war market. The Yonder Lea farm is located at Carlton and is owned by James Edson.
