Oh, Lord! Another revolution
brewing in Mexico.

Preparedness will be great
—when we are prepared.

When you hesitate you
lose. Keep right on moving.

A "good fellow" doesn't
need to tell it as he goes
along.

God loves the man who
loves his country. Where do
you get off?

At any rate, there is no
law to prevent women tell-
ing us men how to vote.

Our long whiskered Uncle
is some busy these days per-
forming the international
wiggle.

Be good to all of the can-
didates. It will be hell to
most of them after election,
anyway.

The fellow who boosts for
his home town never lacks
for friends to boost him. Be
a booster.

No need to court death
now. Get to the European
war front and it won't wait
for a court.

Speaking of the old time
hayseed, it is quite the thing
now to pity the poor cuss
from the city.

Love is a mighty good
thing in the home, but
corned beef and cabbage get
there just the same.

We may not be doing any
of the fighting, but we are
doing a deal of spitting
across the pond at the other
fellows.

No danger of our congress-
men providing for compul-
sory military service. Con-
gressional service is more in
line with their ideas of patri-
otism.

The merchant who wants
to sell goods to the people
must first let them know
that he has the goods to sell.
The mountain never goes to
Mahomet.

Of course you know who
wrote the Declaration of In-
dependence, and can name
the authors of our standard
dictionaries, histories and
other works, but who wrote
the Bible?

Everybody preaches, some
practice, but very few ever
practice what they preach.

If you want to know the
truth about a man, ask any
one but the man himself.

And, too, the time for pre-
paredness against the festive
fly will soon be along.

Henry Ford's little boom
for president seems to have
started with Henry and end-
ed with the same fellow.

We once heard of a fellow
who insisted on telling the
exact truth about a man—
and they called him crazy.

The imminence of war is
casting a blight over our
own fair community. Leap
year is in full bloom and the
weddings have hardly com-
menced to bud.

Any candidate can make
oral promises, but it takes a
square man to put it in type
in the Santiam News over
his own signature. Keep
your eye on our columns and
on the names on your ballot.

No use talking, fellows,
this war must peter out.
Thousands and thousands of
lives are being sacrificed and
the generals and admirals
can't get enough glory to go
around. Even the kings,
emperors and other fools can
only tear off an occasional
sniff.

DANDY UNITED STATES HANDY CREAM SEPARATOR

HAVING the handy things—and the things handy—will put a cheerful grin into what would otherwise be a gloomy grind.
DID you ever stop to think that taking a few less steps each day means saving many weary miles in life's long way.
THERE are about "forty-seven" cream separators, according to "vital" statistics; but in my opinion, there's only one cream separator that is built with the express purpose of saving space, time, energy, steps and temper.

THE U. S. IS A CONVENIENT MACHINE

United States Cream Separators can be driven from either side. That's HANDY because it allows the machine to be set in any corner of the room.

United States Cream Separators take up little floor space, and the bases are all open. That makes them HANDY to clean under.

United States Cream Separators do not have to be started with hot water. You don't have to be told how HANDY that feature is.

United States Cream Separators have just a few parts in the skimming bowls, and these are cleansed, sterilized and dried in a Mechanical Washer. That certainly is HANDY when you consider the two-score-and-more parts which must be hand washed in the dies type of separators.

United States Cream Separators have self-draining bowls—and these are HANDY, for they save slopping and dropping, and strains on tired arms.

United States Cream Separators, with square supply cans, make it possible to place all parts to be washed in the square can, the whole being easy to carry under one arm, leaving the other free to carry the cream. That is so very HANDY that it saves two entire round trips between dairy and wash sink every day.

United States Cream Separators being always in gear, start instantly from any point, with no jerk or jump, and without any preliminary hand eiling. The oil feeds perfectly—even in the coldest weather, and that's HANDY too!

You Will Notice Many Other HANDY Points When Using the U. S. Separator.

IT WOULD BE HANDY FOR ME to leave a United States Cream Separator at your place next week. Let me know how much milk you want to skim each day and I'll figure out the size you need. Business is rushing! Don't put off ordering any longer.

MELLOW-SWEET IS TASTE OF "SPEAR HEAD"

Most Richly-Flavored Chew
That Was Ever Pressed
Into Plugs

FAVORITE FOR A GENERATION

Red-blooded men with real tobacco hunger find that they can satisfy it only by chewing, and the most wholesome and satisfying tobacco to chew is that made in plug form.

The limit of luxury in tobacco chewing is the rich, sweet, juicy flavor that trickles through your system when you chew Spear Head.

No other chewing tobacco is so mellow, so luscious and so satisfying. No other equals Spear Head for putting a keen edge on your appetite.

Spear Head is made of the world's best tobacco leaf—the choicest of red Kentucky Burley. This leaf is selected for its full, juicy richness with the most painstaking care, is stemmed by hand, is pressed into Spear Head plugs so slowly that not a drop of the rich, natural juice escapes.

Your first chew of Spear Head will open your eyes to the genuine enjoyment there is in chewing.

Chew the rich and mellow tobacco that has been the favorite for a third of a century—that's Spear Head. In 10¢ cuts, wrapped in wax paper.

A Specific Against Colds

The nearest thing to a specific against colds is a sleeping porch or open bed room and a cold sponge bath every morning when you first get up. Even then you will occasionally take a cold, especially when colds are epidemic and when you do you will find Chamberlain's cough remedy a great help in enabling you to get rid of it. Try it. Obtainable everywhere.
