## How Mail Order Houses Do It

Herman Rosenfield, advertising manager of Sears, Roebuck & Co, recently told the members of the American Ad Club at a convention:

"We have a bureau whose duty it is to reach each week the country newspapers from all over the country. There is not a paper of any consequence in our trade territory that our bureau does not get. This bureau looks over these papers and when we find a town where the merchants are not advertising in the local paper, we immediately flood that territory with our literature. It always brings results far in excess of the same effort put forth in territory where the local merchants use their local paper."

## BILYEU DEN ITEMS

Not much Oregon weather in our part of the world this week. Hope it will soon arrive as snow and moss don't make a very pleasant combination for us Oregonians.

Mike Bilyeu is hauling lumber and clapboards this week, preparing to rebuild his wood shed. The old one decided one night last week that it had stood up long enough so laid down to rest. Mike seems to think it should have made known its intentions as wet wood doesn't burn well.

E Wendt was shopping in Jordan Saturday.

Jordan under the management of our new merchant, George Balsiger, seems to have taken on a brighter and broader view of the world. We hope that conditions will remain such that it may continue to expand.

Frank Grimes was up this way Saturday with a view of starting another cream route for Shelburn. Clyde Rodgers, who has been hauling cream on this route has accepted a route to haul milk to the Scio Condensery.

Miss Gladys Smith returned the last of the week from Me-hama and Mill City where she visited friends for a few days.

Mrs John Powell who has been visiting at the Hannah home the past two weeks, returned to her home at Tangent Tuesday.

An old fashioned carpet rag sewing was one of our amusements last week, it being at the home of Mrs J H Wortman Friday.

She with a little aid from Mrs C Rodgers served a common country dinner, both in style and taste. Those who helped to make the day an enjoyable one, both in work and fun were: Mesdames G Westenhause, Vardie Shelton, Haman Shelton, F B Frost, Clara Smith, A W Arbuckle, Roy Wirth, John Neal, Will Grimes, Ray Dobson and Misses Eveline Bilyeu and Gladys Smith. As Mr Westenhause acted as stage driver, we will have to include his name on the list for we might want him to perform the act again. The ladies departed at four o'clock, leaving for Mrs Wortman as a remembrance of the day a well filled sack of sewed carpet rag balls. While this is the first event of the kind for a long time, we hope it will be an idea to be copied by others, not merely for the amount of work done, but for the pleasant association as well.

The Lebanon Paper Mill Co has resumed work again. The recent snow and high water made wood driving impossible for several days. They intended to move their camp to Gilkey Station the first of this week.

Mrs Will Grimes spent Thursday at the home of her sister, Mrs Warren Burton.

Wm Downing was down from Fox Valley this week gathering up a few of his potatoes. Some time ago he purchased a supposed-to-be Shepherd pup, but afterwards he was nearly convinced that it was nothing but a scrub, nevertheless Sank still in-

Word was received here this week of the death of Mrs Wm Gorger formerly of this place, but who was living at Lexington at the time of her death. She was a constant sufferer from asthma which with a two days illness of pneumonia caused her death. Mr Gorger has the sympathy of his many friends in this vicinity.

Everyone in our locality (with the exception of two) seems to be able to make a return trip from Scio in one day, or at least in day light. We do not intend to mention any names, but C C Burmester beat his time a little, in fact he broke all his past records one day last week, as we could see him as he went home from town. When C Rodgers can do as well we promise to put his name in the paper, or leave it out, just as he wishes.
