"SPEAR HEAD"
AN OLD TIME
FAVORITE

The Most Popular Chew for a
Third of a Century

PURE, RICH, FRUITY-SWEET

The man who chews gets by far the most wholesome enjoyment and satisfaction out of tobacco, especially if he chews plug tobacco. The rich juices of the leaf are retained in good plugs better than in any other form.

For more than a generation Spear Head has held first place as the favorite high-grade plug chewing tobacco.

This unique distinction is due solely to the wonderful quality and flavor of Spear Head—the richest, mellowest, tastiest chew in the whole world.

Spear Head is the choicest of all red Burley, hand-stemmed and made into mellow-sweet plugs in a perfectly clean, most sanitary factory.

You can't chew the flavor out of Spear Head, because it's a part of the tobacco. That rich, ripe, red Burley taste keeps on pleasing you as long as you keep on chewing.

Chew Spear Head and you'll be chewing the purest and most satisfying tobacco that it's possible to make. In 10c cuts, wrapped in wax paper.

Age of a Whale.

The age of a whale is told by the size and number of laminae of organs in the mouth, formed of a horny substance known as whalebone. These laminae increase in size and number each year. According to scientists who compute the age in this manner, many whales have been captured which were more than 400 years old.—St. Louis Globe-Democrat.

The Probable Reason.

Among the letters received by the editor of a "heart to heart" column in a certain paper was the following, written by a young man:

"Please can you tell me why a girl always closes her eyes when a fellow kisses her?"

In a moment of fiendish frankness the man of the pen indited the following reply:

"Send me your photograph and perhaps I can tell you."

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh is a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
