Dr. Prill for School Director

Next Monday afternoon, June 19, the annual meeting of Dist. No. 95, of which official notice appears elsewhere in this issue, will be held, when the election of a director and clerk will be the most important business to come before the patrons.

There will be no fight on for clerk, as practically every man, woman and child in the district would express a choice for J F Wesely, the present incumbent, but it is understood that there will be an effort made to defeat Dr A G Prill, by those who do not care what kind of a school we have just so it is run cheap.

With the school in the splendid shape which it is, it would appear unwise to the News to put a man in for director who would make an effort to knock out domestic science, rather than one who would make an effort to add manual training to the school course. Dr Prill is wide-awake and progressive and will work for the best interests of the school at all times, and by all means should be retained as director.

Miss Ethal Carson returned Monday from a week's visit at Albany with Mrs John Kelly and other friends. Her stay was shortened somewhat on account of homesickness, as she says this was her first trip away from home to stay any length of time.

Will Beran, who was in town the last of the week, informs the News that Will Gilkey has been doing some effective road work on Mt Prospect hill. As this is the first work that has been done on this stretch of road for twelve years, Mr Gilkey has made himself solid with the residents of that section, who can't say enough nice things about him.

Why Not Clean Up?

The News would respectfully suggest to the City Council that the time is over-ripe for a general cleanup around town, especially in the business district and on the street leading to the fair grounds. On July 4 there will be many visitors from out of town, several coach loads being expected from Portland alone, and a poor impression of the town will likely be carried from here by the visitors, with grass and burdock growing along the streets in the business section, and the street leading to the fair grounds being almost overrun with evergreen blackberry vines.

The rank and file of the Republican party are smiling broadly these days over the outcome of the Chicago conventions last week. Charles E Hughes and Charles W Fairbanks were chosen to be the republican standard bearers, and Theodore Roosevelt, who was nominated by the Progressives, declined the nomination. As a result of this the democrats are weeping large briny weeps, and already are trying to pass a law in Congress that no Supreme Judge may run for a public office under two years after resigning from the bench. It is indeed a sad state of affairs—for the democrats.

Harry Johnston sustained a painful injury last Friday that put him on crutches for several days when a log rolled on his foot, mashing it in pretty bad snape while he was sawing wood with his gasoline outfit at the Herb Wain place. He is rapidly recovering, however, and will be good as new in a short time.

Mrs Maud Holland's house caught fire the latter part of last week from a defective flue and a disastrous blaze was narrowly averted. A new brick chimney is being built this week.

Scio had almost the appearance of July Fourth on Flag Day, June 14, by the liberal display of flags in the business district, which goes to show that patriotism still lives in the Forks of the Santiam.

Mrs Frank Sticha has moved to her property recently vacated by Elmo Sims and family.
