Oregon should have a law prohibiting any public official from reporting any money spent under the head of "miscellaneous." Every penny of public money spent should be accounted for, as the tax payers have a right to know where their money goes. Under the present system there is too much chance for graft.

Why Office of Supervisor Was Abolished

The following from Mrs Ida Maxwell Cummings, Republican candidate for county school superintendent, is self-explanatory:

Dear Sir:

Thinking you might be interested in knowing something of my campaign plan, I beg leave to submit the following:

If elected County School Superintendent I intend to supervise the schools personally, thereby saving the county \$120 per month, the salary of the present supervisor. I believe by adding his traveling expenses to the \$300 per year now allowed the superintendent for a stenographer, that a competent person can be secured to remain in the office, which would enable me to visit the schools and encourage more practical work.

The fact that so many students failed in eighth grade examinations last year proves that the work was not thoroughly done. I also intend to use my influence to have the State Board of Text-Book Commissioners adopt books that the pupils can comprehend, not such as we have at present, that require the use of a manual, that they may be taught intelligently.

Thanking you in advance for what you may do for me, I remain,

Yours very truly,

This is a copy of a letter which I sent to the chairman of every board of directors of Linn county before the primary election. Since then Supt. Jackson has taken a vote and eliminated the supervisor. In his last published report, of about the middle of July, he gives \$19,857 as miscellaneous.

His slogan on the primary ballot was, "Practical, thorough and economical system of schools."—Since when?

Yours for Republican victory,
Ida M. Cummings,
Halsey, O. egon.
