

The Santiam News.

VOL. XX

SCIO, LINN COUNTY, OREGON, THURSDAY, OCTOBER 19, 1916.

NO. 14

Possibly About You

Onions for sale down at Riley Shelton's home. 11tf

Joe Peery, the Stayton tailor, was transacting business in town Monday.

Mrs A L Bashor who has been visiting her sister Mrs Jess Rodgers, returned to her home at Portland Saturday.

Ed Wesely has the thanks of the News office for some excellent jerked venison. Here's hoping he gets the limit again next year.

Little Fern Shelton fell from the sidewalk curbing in front of the postoffice last Thursday evening and sustained a fracture of one arm at the elbow.

A dance will be given at the Wesely hall Tuesday evening, November 7, at which time election returns will be given. The public is cordially invited to attend.

Roy Kinzer of Crabtree had his race horse badly injured Wednesday afternoon of last week in Albany when the animal slipped while rounding a curve and cut its breast on a wire fence.

Married by Rev D L Morgan at Albany last Thursday—Lloyd R Chrisman and Miss Alta Harold. He is the son of W E Chrisman, and she the youngest daughter of Mr and Mrs G F Harold. The newlyweds will live on a farm near Scio.

Married last Thursday at high noon by Rev G H Young in Albany, Gilbert Garland of Scio, and Olive Shanks of Crabtree. Gilbert is well and favorably known here while his bride is the popular daughter of Mrs Harry Freeman. They will live near Crabtree.

Dr J G Turner, formerly of Lowe & Turner, eye specialists of Portland will be at Hotel Scio, Monday, Oct 23d. Dr Turner devotes his entire time, energy and effort exclusively to the eye. He is a graduate of the Northern Illinois College of Ophthalmology and Otology of Chicago, Illinois, and has had more than 18 years of hard and practical experience and knows his business thoroughly in all its branches. This is no side line. Dr Turner gives your eyes a most thorough, searching and scientific examination with the latest improved electrical instruments and when he prescribes glasses it is with positive and absolute assurance that they are the best and only kind suited to your eyes. If you do not need glasses he will tell you so frankly. No charge for examination, or consultation; satisfaction guaranteed. Consult him at Hotel Scio, Monday, Oct. 23d.

YOUR SUBSCRIPTION EXPIRES on the date stamped in the space below. To those who pay promptly in advance the subscription price is \$1.00 per year. The price is \$1.25 if paid during year. The paper is not sent to subscribers who are more than one year in arrears.

Oregon News Notes Pheasants Received Here

Oregon Development News in Line of Industries, Payrolls, and Products of Labor and Enterprise.

Sixes river placers and Bandon black sand mines purchased and will be developed by New York capitalists.

Tillamook will try to add 125 square miles territory to the port district to secure needed money for improvements.

Sugar beets from Douglas county shipped to Grants Pass sugar factory.

Contract let for construction of another lumber ship at Bandon.

Big paving contract company has started construction work in Astoria.

Salmon pack on Rogue river largest in 35 years.

Brookings lumber company erecting twenty additional cottages. Has invested \$1,500,000 in its plant. Everybody at Brookings is looking forward to the completion of the Southern Pacific coast line railroad between Coos Bay and Eureka.

St Johns shipyard building motorship for large cannery firm.

Williams Bros of Donald installing gas tractor for plowing.

Largest wooden vessel ever built on Pacific Coast has just been launched at North Bend. Vessel is 235 ft long and has a capacity of 1,250,000 feet of lumber.

Springfield will ship 100 carloads late potatoes.

Douglas county has developed grape industry to shipping large quantities.

Malheur Gazette—If this state can make a Sunday blue law and Congress can reduce the hours of labor to a minimum, utopia will have been reached and we will abide there for a time. The time will not be long, for these and other proposed laws, if enacted will raise the cost of living and time of idleness to the point of starvation, the point where none can afford to buy. Read the law. Every voter has a copy. After reading we hope the people will take their pencil in hand and kill off all freak laws.

Coos Bay may get a large wood creosoting plant.

State conference held at Oregon Agricultural college to have state acquire limestone and go into lime industry.

Paisley adopts plans for \$30,000 public school.

Sellwood will fight location of a tuberculosis hospital in that city.

1200 men in yards in Portland building ships for Norway.

Floral firm to build \$8,000 greenhouse near Wilsonville.

Oswego cement plant to resume operations at once.

Judging from sentiment expressed by voters over the state, the Land and Loan measure, (single tax) will be snowed under deeper this election than ever before.

Dr A G Prill received six pairs of Chinese pheasants from the state game warden Wednesday morning which were liberated on F T Thayer's farm adjoining town, for the purpose of restocking. Although the hunting season is over, Mr Thayer took the extra precaution to post trespass notices all over the place, and it is almost unnecessary to say that it would prove extremely unhealthy for anyone to bag one of these birds. They were raised in captivity and were in no hurry to leave their cage when it was opened, as it took them about a half hour to decide to get outside and investigate their new surroundings.

Annual Report Filed

Following a meeting of the Fair board Monday evening the financial report was filed this week. It was not very satisfactory from a financial standpoint, as the attendance fell far below normal this year, owing to heavy rains at fair time.

General Fund	
Receipts.....	\$2243.48
Disbursements.....	2474.49
Premium Fund	
Rec'd from state.....	1641.74
Disbursements:	
Live stock.....	\$849.50
Prem. Ribbons.....	134.50
Ladies Dep't.....	329.25
School fair.....	257.50
Total Disbursements.....	1570.75
Bal. Sept 27.....	70.99
Bal. to date about.....	40.00

The total receipts from the gates amounted to about \$1100.

Saturday, October 21

On Saturday, October 21, 1916 I will give a demonstration on the corner of the Frank Gill vacant lot on the north side in the city of Scio. It will be a demonstration that ought to interest every owner of a home. I will give some valuable presents. It will be a sensation and I will promise you that it will be worth your while to come out and learn a few things about beautifying your home.

Don't forget the date, October 21, at 1:30 in the afternoon. N. I. MORRISON, Demonstrator.

Eugene issued permits for seven new houses in September.

Carnation milk condensery adding \$50,000 unit to plant at Hillsboro.

September building permits total \$11,200 for Baker.

Donald gets lot of new houses.

Hermiston apple industry yielding carload shipments.

Wheeler county to vote on \$80,000 road bonds.

Work started on new three-story hotel at Bend.

Conservative estimates places value of Hood River valley agricultural products at \$1,500,000.

Standard Oil Co to erect distributing system at Stanfield.

A Wrong Idea

One of the most common arguments heard in opposition to the movement to secure a county agricultural agent for a county is that "the farmer does not need anyone to teach him how to farm." Persons using this argument do not stop to think how far an agricultural agent would get in a year in an average county with several thousand farmers if he attempted to visit each and every one of them and prescribe what they should do and what they should not. He always answers individuals calls as much as possible but his main work must be through field demonstrations, community groups, farmers' organizations, circular letters and the press.

The plan of county agricultural work so carefully worked out by the U. S. Dept. of Agriculture is not based upon a disregard for the intelligence, ability, or skill of the farmer of today in those spheres in which he acquires experience; but just as the capable mothers finds a time when the child's welfare demands the doctor's care, so problems present themselves for which the most successful farmers finds no solution in the storehouse of his experience. Indeed, if it were not so, farming would differ from all other activities; for in no trade, occupation, or profession, does the individual depend in all cases upon his own experience. The question may be fairly asked, How many years of practical experience must a farmer have?

1. To know whether protein comes cheaper in bran at \$20.00 a ton or in oil meal at \$35.00?
2. To know whether he should apply nitrogen or phosphorus, or potash or sulphur or lime to his soil, separately or in combination, and if so, in what amounts and what the cost should be?
3. To be able to identify hog cholera by post mortem examination?
4. To know the life history and control of the many insect pests and fungus diseases that are of economic importance?
5. To start an egg circle, a cooperative stock shipping association, a public market, a milk-shipping association, etc?
6. To stop the spread of a contagious disease like foot-and-mouth disease, hog cholera, or sheep scab; or to wage a campaign against jack rabbits, ground squirrels or other rodents?
7. To get his neighbors to standardize the potato crop, the apple crop or some other crop so that the community can market advantageously?
8. To protect his community against impure seed and adulterated feed?

Vetch seed for sale by Wm Dobrkovsky. 12:3p

If you are in need of a time piece, don't buy one until you have seen the complete line of Ingersoll watches on display at Everett's drug store.
