Trout for Restocking

As will be seen from a notice elsewhere in this issue, upper Thomas creek and its tributaries will be closed to fishing until March 1, 1919.

Dr Prill informs the News that the State Fish and Game Commission has promised 70,000 trout for this year and a like number for next year for the purpose of restocking these streams, to be apportioned as follows each year:

Thomas creek, 25,000,
Bilyeu creek, 15,000,
Burnester creek, 10,000,
Roaring river, 20,000.

The Commission should now be petitioned for a warden to be stationed in these parts who will see that the law is enforced, else the law will be a joke.

UPPER SANTIAM EVENTS

Frank Beers, who lived on the Potter place on the Lyons-Jordan road, took strychnine and nearly ended his life. Reports vary as to the reason. Dr Beauchamp phoned immediate orders as to emetics and arrived himself in a few minutes, about the quickest run the doctor ever made. Beers has gone to California.

The Stupka family of Gooch spent Sunday at Albany with her parents. The Stupkas formerly lived on the Cyrus donation claim. The family went back to Iowa and have been prospering.

Patterson, the dray man, and engineer Bodeker and family visited over Sunday with their parents at Lyons.

Lyons is looking up. A fine graded school with Prof Kane and a Miss White of Salem as teachers. My, but they have a fine school building. There are two stores, two hotels, an I O F lodge and a grange. A large amount of grain and livestock are shipped from there.

D B Smith has sold his store at Gates and will move to Salem. I helped to bury his grandmother in 1883 at Gates. She was the daughter of Morgan who disappeared from his home in York state. His fellow lodge members were accused of "spiriting" him away. In 1883 I had seven of his great-grandchildren as pupils in school. As many know, due to reports caused by his disappearance, it caused the formation of a new political party which had a large number of voters enrolled. How people can be stampeded sometimes! According to information gleaned from the Smith family and other sources, there was no evidence to show that he had been foully dealt with.

John Shulte has returned from eastern Oregon. He visited Madras relatives and reports exciting times when the county records were taken by force from Culver to Madras. The courts will probably cause a recount of votes. Bend he says is building a \$100,000 hotel. A big sawmill plant is cutting 1,000,000 ft every 24 hours. They work in 3 shifts and run night and day.

Mr and Mrs Bassett gave their children the surprise of their lives Monday this week when they received a \$350 piano from Albany. The children knew nothing about it until they came home from school. What do you think of that?

Mode Davis has returned to Gates to live. His health was no better at Salem.

Mr Long of Gates died and was buried in the Kings Prairie cemetery.

Grafe and the Schroder Bros ship several car loads of logs daily to the Albany sawmill.

The C & E boarding cars are standing on a sidetrack between Gates and Mill City. They are making extensive improvements along the road.

Peery and "Brer" Sutherland will get well.

The death of Mrs Ben Irvine reminds a person that several good people have gone of late. Among them I recall Mrs McDonald and Mr Compton. What is death? Only a passing as it were from one room to another. Charles Froman, who went down with the Lusitania, said to others: "Don't worry, I think to die is a beautiful adventure." Vanderbilt, after placing his wife and boy in a boat, shouted: "Save the kiddies." No thought of himself. Another "beautiful adventure." The mother, who was clinging with her three children to "flotsam and jetsam" was picked up by a boats crew. Due to exposure the children died. The officer gave orders to bury the dead to lighten the boat and to save the living. They were about to place her children in the water and she said: "Give them to me. God gave them to me to keep and they are mine to give away." She placed them one at a time in the water. A beautiful adventure.
