"Uncle" Barney Burtenshaw of Lebanon, who was visiting his daughter Mrs. Eliza Crabtree last week, was a pleasant caller at the News office Thursday. Mr. Burtenshaw who is in his 94th year, remarked that when he was in business here in 1864, the main trouble with Scio was that two or three men tried to run the place, and that nothing would do at all that did not meet with their entire approval, and added that he was given to understand conditions were about the same here now. The writer maintained an attitude of "armed neutrality" and assured Uncle Barney that if some of our citizens do not play when they can't have everything their own way, their motives, at least, are good, as they really have the best interests of the town at heart.

United States Senator Harry Lane of Oregon who voted with the lonesome twelve against more than 500 members of congress as well as President Wilson, in the late lamented filibuster, to prevent the arming of merchantmen, is being affectionately referred to by his constituents as "poltroon," "copperhead," and other loving epithets. The general consensus of opinion seems to be that "Our Harry" had better go to Germany or hell or some other place, rather than to return to Oregon, when his term expires, if he cannot be persuaded to resign in the meantime. It is amusing to note that some of the democratic papers defend his action on the ground that they think he at least acted honestly, which is equal to saying that he just didn't know any better. A fine combination of qualifications for a U S Senator to possess—stupidity and ignorance.

THOMAS CREEK JOTTINGS

Wonder if Spring has really come to stay this time. Chatter Box was absent last week on account of the snow being so deep to get to the mail box. There was a good 16 inches of it in our part of the country.

Mr and Mrs Perry Bilyeu drove over from Crabtree Friday remaining at the parental homes of S B Cole and Mrs Nancy Bilyeu.

S B Cole and wife spent Sunday with their daughter Mrs R C Pepperling.

Isac Burton returned from Lacombe Tues where he had been visiting a few days.

Will Wirth left last Monday for Baker City Oregon where he expects to work the coming summer.

Several from here attended the party and pie social given at the Z C B J hall Saturday night by professor Miller and his school pupils.

Mrs Haman Shelton of Jordan spent the week end at the home of her mother, Mrs Nancy Bilyeu. Mrs Shelton is the lucky owner of a new Ford car.

News is all snowed under this week.

Chatter Box.

Very Popular

A member of the senior class is exceedingly popular with the H S girls this year. That is, he thinks so.

He can't decide to which of his many virtues to attribute the fact, but he knows that one of the girls is a hopeless victim to his engaging smile and witty remarks.

The other girls admire him especially for his gentlemanly manners and athletic ability and have been privately referring to him as "Cutie" for some time.

However, he has not allowed this to quite turn his head and never boasts or brags and the senior class is quite proud to have him a member.

—An Admirer.

GET RID OF "BLUE MONDAY."

Do It by Eating Less and Exercising More on Sunday.

Grouchiness is more prevalent on Monday morning than at any other time in the week, and to such an extent that life is made disagreeable temporarily for many families and for many co-workers. That such manifestations of ill feelings are detrimental to private and public interests is widely acknowledged, but it has remained for Dr. Samuel G. Dixon, state commissioner of health, to call public attention to the Monday morning grouch and to tell how it can be done away with.

"The majority of people," Dr. Dixon says, "are apt to fall into two general divisions. One class tries to crowd too much into the time between one week's end and the beginning of the next week's labor. They take up their business on Monday morning exhausted and overtired, instead of refreshed by the 'day of rest.' The other class goes to extremes by overeating and underexercising, and the result is equally unhappy."

To these causes the doctor could have added the "hang over" from Saturday night, for that there is more dissipation then than during any other night in the week is beyond dispute. This is followed by late rising on Sunday morning and, if the stomach will permit, the eating of three meals, which are always heavier on Sundays than on other days. The remedy then lies with

the individual, and it consists in abstinence from liquor Saturday night and less eating and more exercise—nothing better than a long walk—on Sunday. By following this plan what is known as "blue Monday" will be wiped off the social and business calendar and everybody will be fit to enter upon the duties of the week.—Pittsburgh Chronicle-Telegraph.

Leander's Feat.

Stories of the ancients who performed prodigious feats pale into insignificance compared with modern accomplishments—for example, the story of Leander, who swam the Hellespont with the praiseworthy object of passing an hour in the presence of his sweetheart. Now, the body of water known in ancient times as the Hellespont is in these days called the strait of Dardanelles, and the distance across is rather less than a mile. Compared with such a swim as that of Captain Webb, who first swam across the strait of Dover, a distance of twenty-one miles, Leander's performance seems not only credible, but insignificant.—London Globe.

Learned by Experience.

"Just because we have different political views is no reason why we shouldn't be friends."

"You are wrong there," answered the contentious man. "As a case belli there is positively nothing more productive of results than a difference of political opinion."—Birmingham Age-Herald.
