

Zomnort No. 01091

Son of Zombro 2:11

Zomnort is a bay stallion, strip in his face, weigh 1050 pounds Sired by the great Zombro, 2:11, one of the greatest sires of track horses in the United States.

Zomnort was sired, as above stated by Zombro who has 108 colts in the list of 2:30 to 2:04½. The dam of Zomnort was Norty by Del Nort 2:08; second dam Minnie K 2:18½ made forty years ago. Her sire was Billie Cone, he by Flying Morgan, 3rd dam by Flying Morgan.

Zomnort has had but four colts which have been worked, viz Listerene 2:15, Doctor John R, two-year-old 2:30, Rena, 4 year-old 2:36 after 30 days training; Salem Boy, two-year-old 2:23 and at 3-year-old in 2:19½. None of these dams were standard bred mares.

Zomnort will make the season at the Scio Fair Grounds. Terms: \$25 with return privileges. Come and see Zomnort and you will be pleased.

Sweet Home Items

About a week ago J. A. and W. V. Coulter brought a 1½ ton truck to Sweet Home for the purpose of freighting. They have tested it out pretty well and find it a success. They took a party to Foster to the medical show and lecture, also a party to Holley to a ball game on Sunday and a party to Lebanon on Monday night to a moving picture show.

We have learned that Dr. Parly was called to Albany last Monday on account of the death of his father. The father came to Sweet Home with the show and remained a few days but was compelled to go to Albany on account of his health, at which place his death occurred.

Ernest Scholl went to Lebanon one day this week.

Rev. Stoker of Foster, passed through the city enroute to Lebanon this week.

H. R. Slavens and family accompanied by W. H. Putnam and wife, motored to Lebanon to take in the moving picture show one evening of this week.

The Sweet Home base ball team went to Holley Sunday to play the Holley boys a game of ball. We understand the score stood 8 to 0 but in the seventh inning through some misunderstanding, the game broke up with a little ill feeling, the Sweet Home boys returning home immediately.

R. C. Watkins and family took a spin Sunday, going to Sodaville, Lebanon, Plainview, Brownsville, Crawfordville, Holley thence home. One day this week the writer ran across J. F. Malone up in Foster and started to haul him home, but he got scared and jumped out of the rig just before he got there.

F. L. Housouer and wife have moved to the Toll Gate above Cascadia to work for J. Menear for the summer.

Mr. Zastrow and family have moved from Rocky Point at Foster to this city, moving into the house vacated by F. L. Housouer.

The road workers will be done crushing rock near the cold spring in a few days and will move near town to finish their job.

Bert Simons and wife are in town visiting at the home of the city marshal.

Holley Items

We have had a few frosty nights but, so far, fruit is uninjured.

Everybody is busy putting in his garden.

Clyde Davis' house was consumed by fire, one night last week. Origin not known.

J. V. Wright, of Meadows, Crook county, is here on a visit to his brother, L. O. Wright, sister, Mrs. D. W. King and his parents, who live in Crawfordville. Also many old friends, as he and his wife formerly lived here.

Murray Barret

For Sale—A "Sure Hatch" incubator; also a "Trusty" incubator. Both machines are of 150-egg capacity and in first-class condition. I have, also, brooders to go with the machines. Price for incubator, brooder, lamps, etc., \$10. See Wm. Brenner for particulars.

If you want any of the daily papers, The Tribune will get them for you at Bargain Day rates, providing you pay for The Tribune one year in advance.

STUCK IN THE MUD.

That Was the Normal Condition in Chicago Village in 1833.

An elaborate series of descriptions of middle western road conditions is contained in Charles Cleaver's "History of Chicago From 1832 to 1892, Illustrating the Difficulties of the Route From New York to Chicago." In the village of Chicago in 1833, Cleaver tells us: "Parties informed us that in the spring we would find it almost impossible to get around for the mud, a truth forcibly illustrated when a few months later I got into a wagon to go about one and a half miles northwest. It was with the greatest difficulty that two good horses could pull the empty wagon through the two feet of mud and water across the prairie. * * * A year or two later I saw many teams stuck fast in the streets of the village. "I remember once a stagecoach got mired in Clark street opposite the Sherman House, where it remained several days, with a board driven into the mud bearing this inscription: 'No bottom here.' I once saw a lady stuck in the mud in the middle of Randolph street. She was evidently in need of help, as every time she moved she sank deeper and deeper. An old gentleman from the country offered to help her, which had such an effect upon her modesty that with one desperate effort she drew her feet out minus her shoes."

Why You Sneeze.

There is more than one cause for sneezing, and persons may differ in their susceptibility to them. A bright light will cause some persons to sneeze, the pollen of certain plants will affect others, and most people are likely to sneeze in the presence of dust. Such sneezing is due to superficial irritation. The sneeze caused by the effect of cold is different. It is an attempt of nature to cure you. She makes you sneeze for the same reason that she makes you shiver—to generate heat for warming the blood and preventing you from taking more cold—to help relieve the cold you have.

The sneezing from cold is not an act of the nose alone, this being merely the part of the body where it explodes. It is an act of the entire body during which every muscle gives a jump. The body is affected by a spasmodic effort to warm the entire system and throw off the cold.—Boston Herald.

Destiny.

Destiny is either the excuse men give for their errors or a humble supplement to their successes. Destiny reconciles a man to unpaid bills, the abuse of the proletariat, ingratitude and relatives, especially if they are his own. A man who is making progress is thought—by himself—to control his own destiny. When he isn't making progress his destiny controls him. Destiny is always at work. When it is not doing it is nudging. It has a star for a trademark which is recognized in every country in the world. It has made a great many see double. Not everybody has a destiny. Some are comparatively happy.—Life.

A Natural Deficit.

"Do you find much change in the old town?" asked an interested friend of Colonel Sellemquick, the eminent promoter. "Well, no," replied the colonel thoughtfully. "But then I scarcely expected any. You see, I got most of the local supply before I went away."—Richmond Times-Dispatch.

Bright Suggestion.

She—But if I can't live on my income and you can't live on yours, where would be the advantage of our marrying? He (thoughtfully)—Well, by putting our incomes together one of us would be able to live, at any rate.—Boston Transcript.

Looking Ahead.

"Do you think you could learn to love me?" asked the old millionaire. "Perhaps," said the girl coyly. "Do I get a title to a fine house as a diplomat?"—Louisville Courier-Journal.

WOODS THAT SINK.

There Are Many Varieties That Will Not Float in Water.

That wood floats is such a commonplace fact in our lives that we hardly give it any thought. If we lived in tropical climates we would learn to distinguish between woods that float and woods that do not float. Many of the woods of Mexico and South America are so heavy even when perfectly dry that they will sink in water, notably lignum vitae, which is the wood commonly used for bowling balls.

Among our common native woods there are several that will not float when green. The cypress of the south is often girdled a year before it is cut so that it will die and dry while standing, thus making it possible to float the logs to the mill.

The reason why some woods float is not because the substance of which they are made is lighter than water, but because the cavities in the cells are so large that the air in them buoy up the wood. The material (cellulose) which composes the greater part of the cell wall is heavier than water, so that if the air in the cells is replaced by water the wood will sink. This is just what happens to wood which has been in water for a long time and has become "waterlogged."

It is the large water content of the heartwood of freshly felled oaks and hickories and of the sapwood of certain conifers that causes these woods to sink, for when dry they will float.

Lignum vitae and other heavy tropical woods, even when dry, sink because most of the cell cavities are so small compared to the thick cell walls that the air in the cavities is not enough to float the wood.

CULTIVATE RELIABILITY.

It is Always in Demand and Adds to a Man's Worth.

The demand for reliability never ceases. If you buy a piece of machinery you want it to be dependable. When you purchase new clothes you desire them to be durable. If you elect an official you require that he shall be trustworthy. When you take on an employee you inquire whether he can be relied on, as to his word, his work, his loyalty. It is so in all the relations of life. While there is much unreliability, you never hear of anybody seeking it or placing a premium upon it.

The reliable man is always spoken of in terms of praise. His friends boast that he can be depended upon to do a certain thing under a certain set of circumstances without variability or shadow of turning. They say they can find him in the dark and can trust him then with the same faith as in the broad light of day. They refer to him as one whom you can tie to. They have no fears that he will either default or betray. He has all the steadiness and fidelity of a well-trained plow horse. He may lack brilliance and finish. He may not be a genius. But as far as his abilities go he is as reliable as time itself, and thus he becomes more or less of an institution in the circle within which he moves and an anchorage for those dependent upon him in any way whatever.—Pittsburgh Gazette-Times.

What Did She Mean?

The two young ladies had gushed and "dearied" each other until the other passengers in the tram were heartily sick of it, especially as they never lost a chance of getting in a nasty cut at each other.

Just before they parted Angelina obliged Emmeline with a stamp for a letter.

"Oh, I must give you a penny for this!" exclaimed Emmie, as she prepared to leave the car.

"Don't bother, dear," cooed Angie. "Give it to me next time I see you."

"But you mayn't see me for a long time," protested Emmie.

"Oh, well, the loss wouldn't be great!" cooed Angie, more sweetly than ever.—London Answers.

A Cry For Help.

Good advertising benefits any form of business. The right sort of advertising gives you a friendly feeling toward a firm. It makes you believe that it will be both pleasant and profitable to deal with the advertiser. A certain grocer once inserted in the newspapers an advertisement that had this merit. It ran:

"Twins are come to me for the third time. This time a boy and a girl. I beseech my friends to support me stoutly."—Youth's Companion.

An Old Korean Custom.

In Korea until comparatively recently a man was not allowed the dignity of trousers until he had taken to himself a wife. Your gay bachelor had to wear a skirt and brand himself in the public view as one who had not yet attained a position in which he could support a wife.—London Chronicle.

Their Kind.

"What do you think of the way that upstart Binks gives himself airs? Here he was talking the other day about the delights of his said days." "Well, I could have reminded him that they were not chicken said days."—Baltimore American.

The Thrice-a-Week Edition of The New York World

Practically a Daily at the Price of a Weekly.
No Other Newspaper in the World Gives So Much News at So Low a Price

The year 1914 has been the most extraordinary in the history of modern times. It has witnessed the outbreak of the great European war, a struggle so titanic that it makes all others look small.

You live in momentous times and you should not miss any of the tremendous events that are occurring. No other newspaper will inform you with the promptness and cheapness of the Thrice-a-Week Edition of the New York World. Moreover, a year's subscription will take you far into our next presidential campaign.

The Thrice-a-Week World's regular subscription price is only \$1 per year and this pays for 156 papers. We offer this unequalled newspaper and The Scio Tribune together for \$1.90. The regular price is \$2.25.

For Sale

A valuable farm—310 acres, six miles west of Lebanon. 190 acres in cultivation, balance oak grub pasture land. Fair house and barn, good small orchard, within one-half mile of railroad, on R. F. D. route. The farm has good natural drainage and is regarded as one of the best farms in that locality. All of the cultivated land has been seeded to clover. For price and terms write or see The Scio Tribune, Scio, Ore.

Be Sure

And read The Country Gentleman. You can get it from Everett Burden
