

THE SCIO TRIBUNE

VOL. 3. NO. 51.

SCIO, LINN COUNTY, OREGON, MAY 13, 1915

\$1.25 THE YEAR

REPARATION TO BE DEMANDED

A Diplomatic Break With Germany is Possible—Wilson's Policy is Forecast

Washington, May 9.—(Correspondent to Oregonian).—Your correspondent is in a position to forecast the impending note of the United States to Germany holding that government to "a strict accountability" for the loss of American life in the Lusitania, Gulflight and Falaba disasters.

From a high authoritative German source the correspondent likewise has learned the expected character of the action which will be taken by Germany.

President Wilson will demand:

1—Full reparation, which necessarily must be in the form of a cash indemnity, for every American who went down with the Lusitania, Gulf-light and Falaba.

2—A pledge by Germany that this method of submarine warfare, so shocking to the humanitarianism of modern civilization, shall cease at once.

Germany is prepared, according to the high authority with whom the subject was discussed:

1—To express regret that so many Americans were drowned, especially in view of the repeated warnings given neutrals not to take passage on allied merchant ships.

2—To make such financial reparation as is proper, where such action is especially required, because under the treaty between the United States and Prussia Americans specifically have the right to traverse freely the waters of nations with which Germany is at war.

3—To propose the cessation of

(Continued on page 3)

New Sawmill Firm

Henry Miller and the younger portion of his family expect to start for Crook county in a short time to engage in business and, perhaps, make that county his permanent home.

He has turned his sawmill property over to his sons, who will operate the plant. Tuesday, two of the Miller boys brought a planer from near Stayton to add to the equipment and also, will bring a donkey engine from the same place in a short time. The Tribune wishes the new sawmill firm success.

Fishing Tackle

If you want fishing tackle to take with you on your early spring outing, don't fail to see Hagey, the jeweler, about it. He has just received a new stock which is the best the market affords.

Stag Party

Dr. Sanderson, Walt Bilyeu, Fred Jones and A. E. Edwards entertained a number of their gentleman friends at the K. of P. hall last Saturday evening. "500" was played until a late hour when refreshments were served.

Dr. Prill took a flashlight picture of the party. A most enjoyable time was had.

92 FROM LINER LIE NEATH IRISH GREEN

Soldiers, Sailors and Dignitaries Follow Muffled Drums—Babies Placed In Graves

Queenstown, May 11.—Ninety-two passengers of the Lusitania, who formed part of that pitiful handful of maimed, dead and dying brought ashore with the survivors of the disaster that followed the attack on the vessel by a German submarine last Friday, were buried yesterday with services that have no parallel in history.

Under a sky in which not a single cloud floated and to the strains of hymns played by British soldiers, they were laid to rest two miles behind Queenstown in a cemetery bursting with spring greenery and tucked between hills flaming with gorse.

Queenstown never sensed the full horror of the Lusitania disaster until now. Up to the time that the long stream of coffins began to disappear over the hill behind the town there was about the affair what, with the continued searches for survivors and the bustle about the morgue, something of the unusual and theatrical. When the funeral started, however, the realization came that each of these cheap coffins held a body and that in the Atlantic less than 20 miles away, there were more than 1000 others—all victims of a German submarine.

Demand For "Country Club" Milk is Good

The condensery has orders for six cars of milk to be delivered in the month of May, all for California points. Each car will carry 630 cases, making 3780 cases for California. In addition the Oregon trade, which is large, is being taken care of.

Unfortunately the price of condensed milk is so low that but little if any profit above cost is realized. But to be successful in the future, the trade at the above points must be taken care of.

Mesdames Wesely and Sticha Entertains at 500

Friday of last week Mrs. J. F. Wesely and Mrs. J. S. Sticha were joint hostesses to an afternoon "500" party at the home of Mrs. Wesely. Scores were counted and Mrs. Hagey having the highest score, was presented with a handsome prize. Mrs. P. H. MacDonald received the baby. At the close of the delightful afternoon, a dainty lunch arranged in colors of yellow and white, was served.

FLOODS STOP RAIL TRAFFIC IN SOUTH

The Second Storm Sweeps Away More Track—Sacramento River is Rising Fast

Redding, Cal., May 10.—A second storm swept down upon the Upper Sacramento valley this afternoon and added to the devastation caused by the cloudburst of last night. The Sacramento river is reported to be rising at the rate of a foot an hour at Kennett, where it was 22 feet early tonight.

Part of the town of Kennett is flooded and the water has reached the second floor of some of the residences. Their occupants have left for places of safety.

A total of 8.64 inches of rain has fallen at Kennett in the last 24 hours, and it is still raining there tonight.

Many washouts on the Southern Pacific between Kennett and Moiton were reported. In one place it was reported the track was shoved off the mountain in stretches of 100 feet nearly to the water's edge.

Railroad officials reported tonight there is no hope of opening through traffic between Portland and San Francisco tomorrow. Mails are being routed by way of Ogden. It is said it will be several days before repairs are made.

GERMANY REGRETS AMERICANS ARE LOST

Not Seeking Trouble With United States is Report—Says Responsibility Rests on England

Washington, May 10.—One point of the international tangle growing out of the loss of 115 Americans with the Lusitania is settled. Germany is not seeking to provoke trouble with the United States. This was accepted when Ambassador Von Bernstorff called at the state department and expressed deep regret for the loss of the Americans and cable dispatches told of a message forwarded from Berlin expressing the regrets of the German government.

Germany hasn't withdrawn from her position that the attack was justified. Her view is that a vessel carrying munitions of war is subject to attack. But Germany through Von Bernstorff sought to show that the torpedoing of the vessel, upon which it was known there were many Americans, wasn't planned as an affront to this nation. Officials do not pretend that this has eliminated all difficulties in dealing with the grave problems confronting the administration. But it was agreed this expression of good will opened the way for a calm deliberation between Washington and Berlin.

When you want printing done, the kind that is pleasing to the eye. The Scio Tribune office is the place to get it. We always please. We never disappoint.

Deer Horns Stolen

Billie Abbott's visit up from Falls City, was to look after some deer horns, which were left in the basement of his house when he moved away. When he arrived here, he procured a search warrant and soon found the horns. Nothing further has been done about the theft, though we understand the matter will be submitted to the next grand jury.

PEACE IS TONE OF PRESIDENT'S TALK

No Direct Reference is Made to the Lusitania—Right is Placed Above War

Philadelphia, May 10.—President Wilson gave to a gathering of 4000 neutralized Americans tonight the first intimation of what course the United States government will pursue in the situation resulting from the loss of more than a hundred American lives on the British liner Lusitania.

He spoke by implication, but his hearers interpreted his remarks as meaning that while the United States will remain at peace it would seek to convince Germany of the injustice to mankind of the tragedy of last Friday.

"America," said the president, "must have the consciousness that on all sides it touches elbows and touches heart with all nations of mankind. The example of America must be a special example and must be an example not merely of peace because it will not fight, but because peace is a healing and elevating influence of the world, and strife is not."

"There is such a thing as a man being too proud to fight. There is such a thing as a nation being so right that it does not need to convince others by force that it is right."

Linn County Good Roads Day Date Has Been Changed

The date of Linn county's good roads day has been changed by the county court as the result of a decision reached this morning by Judge McKnight and Commissioners Butler and Irvine.

Instead of being observed on Saturday, May 22, it will be observed on Thursday, May 20.

The change was made in view of the fact that the governor had proclaimed May 20 as good roads day throughout the state and the county court desired that the date for this county correspond with the state event.

However, the Linn county court still believes that each county should set its own good roads day because conditions are not the same through the state at the same time of year. It so happened this year that the date proclaimed by the governor will be an opportune time for this county.—Albany Herald.

Wheat has come down to one dollar per bushel, in Scio, the lowest price for several weeks.

DELIBERATE PLAN LAID TO GERMANY

Letter Received a Month Ago in Washington Looks on War With Equanimity

Washington, May 9.—That Germany deliberately prepared to destroy the Lusitania irrespective of the fact that Americans might be on board as passengers and that she would regard war with the United States "with feeling of equanimity" is declared to have been shown by a letter from a high German government source received in Washington almost a month ago. The name of the writer cannot be disclosed nor can the letter be printed in full at this time. The following summary and paraphrase is declared, however, on high authority to be accurate:

That a radical change in public sentiment toward America has taken place in recent weeks. Its character is shown by the following statement made by Field Marshal General von Aindenburg:

"How can I feel kindly toward a people with whom we have no quarrel and whose ammunition is daily killing my soldiers?"

That Germany looks "with equanimity upon a possible war with the United States." Germany's situation would not be seriously affected thereby. On the other hand if war should come, the United States would stop selling munitions to the allies, for it would need them for its own use.

That America is in no condition to go to war.

America has no army and Germany has its opinion of the United States fleet. Moreover, it is not for a moment to be supposed that the Germans and Irishmen in the United States would remain tranquil in a war against Germany which would be an aid to England. "You must think of the effect of this upon your own government and whether it might not be in danger of overthrow."

That there is not the slightest question that if "one of our submarines should encounter the Lusitania, she would torpedo her; it would make no difference whether she flew the American or the English flag. The English have announced a policy of starvation for the women and children of Germany. Why should we concern ourselves should some of their women and children be drowned as the result of an attack on one of her ships? Should several hundred Americans be drowned at the same time, the fault would rest on them, for we have given warning and they ought not to blame Germany. Rather the responsibility rests on England. You must not forget that our submarines and their officers and crew cannot pursue any other course than it has been necessary for them for the sake of their own safety to follow."

If one wished to see all of Scio's idle men together, he could have satisfied his curiosity last Friday afternoon at the scene of the moving of E. C. Shelton's house just across the bridge on the south side.
