

THE SCIO TRIBUNE

VOL. 4 NO. 7.

SCIO, LINN COUNTY, OREGON, JULY 8, 1915

\$1.25 THE YEAR

SCIO PEOPLE CELEBRATED ELSEWHERE

Salem, Crabtree, Mill City, Jefferson and Sweet Home Are Points Visited

Because July 4th occurred on Sunday, celebrations, picnics, outings, etc. have been spread to cover three or four days. Usually you can attend but one celebration, but many Scio people attended two with a picnic on Sunday sandwiched between.

Saturday the celebrating feature was ushered in by Uncle Ike Bates and others firing a salvo of anvils in front of the blacksmith shop at sunrise. Early in the morning hacks, buggies and autos were in evidence, preparing to carry their occupants to the selected place for the day's enjoyment.

By far the largest portion of our citizens went to Crabtree, a few to Mill City, a few to Salem and quite a number for a two-days' camping and fishing on our trout streams. On Sunday a select picnic and fishing party spent the day up Thomas creek and on Monday a large number of our people, including our base ball team, heard the eagle scream at Jefferson.

Saturday evening J. F. Wesely treated his family, relatives and friends to quite a pyrotechnic display, at his handsome home on the hill in the south part of town.

Crabtree is said to have had a large crowd of visitors on Saturday. The program for the day consisted of speaking in the morning, a barbecue dinner, a baseball game and other sports in the afternoon and a dance in the new Farmers Union hall in the evening.

Fishing Tackle

If you want fishing tackle to take with you on your early spring outing, don't fail to see Hagey, the jeweler, about it. He has just received a new stock which is the best the market affords.

The Biggest Typewriter

A typewriter that is nearly 2000 times the size of the ordinary machine is one of the novel exhibits at the Panama Pacific exposition. While installed principally as an advertisement, this enormous machine also serves another purpose of as great importance, since it is used for writing newspaper bulletins that can be read a block away. This machine, which is 21 feet wide and 15 feet high, is reported to have cost \$100,000. The type are three inches in height and prints letters which are spaced two inches apart from center to center.

Damaged His Automobile

The bridge across a slough near the old slaughter house in the south part of town, has been rebuilt and placed in the center of the road. Formerly it was somewhat to the east side of the road. On Saturday night Walter Miller was driving his auto along the old road track and not noticing the location of the new bridge, missed the bridge with two wheels, resulting in considerable damage to his machine. Fortunately no one was injured.

ASSASSIN MAY GO TO MATTEAWAN

The Doctors Say Assassin is Paranoiac
—J. P. Morgan Favors the Plan

New York, July 5.—Frank Holt, the Cornell instructor who on Saturday shot J. P. Morgan, will not, in the opinion of Nassau county officials, go to trial before a jury for his crime. Instead, they expect that he will be sent to the hospital for the criminal insane in Matteawan, there to end his days.

He will be arranged Wednesday in Glen Cove before Justice Wm. E. Luyster, and unless he is granted a further continuance he will be held without bail for the Nassau county grand jury. This does not meet until September and in the meantime alienists will study him in the jail at Nineola. Their report is expected to furnish the evidence on which he will be sent to Matteawan.

This disposition of the case will be satisfactory to Mr. Morgan. It at once saves him the necessity of appearing in court against him. Mrs. Morgan is also saved that trouble and any danger of annoyance in the future from the man's escaping. Paranoia is not one of the diseases from which recoveries are made.

That he is suffering from this disease is the positive declaration of Dr. Cleghorn, the Nassau county jail physician, whose patient he is. Dr. Cleghorn is the only physician who has seen the prisoner since he was committed. He has seen him at least once a day since he was taken to the jail, and after yesterday's visit said there was no doubt as to his mental condition.

What is an Inch of Rain?

Very few persons, even those who are well informed on most matters, know how much an inch of rain is. The average man or woman probably has an idea that an inch of rain is a mere trifle on nature's part. This is entirely wrong. In reality it is a good big rainfall, more than falls in many localities in an average week.

A rainfall of one inch means literally that the amount of water descending in a particular shower would cover the surrounding territory to a depth of one inch, providing it did not run away or soak into the ground.

An inch of rain coming down on a single acre of land would fill more than six hundred barrels of 45 gallons each.

SCIO CITY COUNCIL FILLS VACANCIES

Henry Miller, Al Taylor, Removed, John Gill Deceased, E. C. Peery, N. I. Morrison, J. Lindley Elected

When Henry Miller and Al Taylor removed from Scio, and death called John Gill, just one-half of our city council had become disqualified. It was then up the remaining three councilmen and the mayor to supply these vacancies, because without unanimous accord, the decimated councilmanic board could not do business. So last Friday evening, the remnant of the old council got busy and filled the vacancies, with the following: E. C. Peery, N. I. Morrison and J. M. Lindley.

There is much work for the reconstructed council to do. Our streets and sidewalks need attention, sanitary conditions need looking after and the town tidied up in general before our County Fair is on.

The Tribune believes the new members will add strength to our city board of law makers. They are practical business men, have initiative, have had experience along these lines and are not afraid to do things. While they will be economical and careful with the city's finances, they are broad minded, farseeing and know that the timely expending of money in caring for the public welfare, is real practical economy.

LIBERTY BELL IS ON ITS WAY WEST

Ceremonies at Philadelphia Impressive as the Relic is Placed on the Train

Philadelphia, July 5.—Philadelphia said good bye to the liberty bell today. Escorted by the First Brigade, National guards, the old revolutionary relic passed between the lanes of thousands of persons to the Pennsylvania railroad station, was hoisted on a specially constructed car, and, amid cheers, left for the Panama Pacific exposition.

The bell is being taken west on a special train which will make more than seventy stops for local celebrations before it reaches San Francisco on the night of July 16. Six months will elapse before it will be returned to its case in Independence Hall.

Please Pay Up

The Tribune has a large amount of money due from delinquent subscribers, advertisers and for job work. Your account, though small, when totaled with several hundred others, amounts to a considerable sum and we need the money.

Confer a favor to us by remitting at once.

Successful Fishing Party

Mr. and Mrs. P. H. MacDonald, Mrs. Emma Cyrus, Miss Winn, of Portland, Miss Nita Bilyeu, Miss Bernice Morris, Frank Morris, and Merl Cyrus went up Thomas creek Saturday for a two-days picnic and fishing trip. The entire catch for the trip was 427 fine trout. Mrs. Ollie MacDonald proved the most successful lady fisher, her catch was 40.

The Tribune extends thanks for a fine mess.

WILLAMETTE RIVER CLAIMS TWO GIRLS

Five Girls Go in Bathing at Sailem Last Sunday Afternoon and Two Are Drowned

Salem, Or., July 5.—Miss Maud Smith, a bookkeeper in Lebanon, and Miss Dorothy Rauch, a high school girl of this city, were drowned in the Willamette river here yesterday afternoon while endeavoring to save Miss May Rauch, a teacher of this city, and the third member of a bathing party of five. Miss Ruth Rauch, also a school teacher, and Miss Gretchen Brown, a high school girl, both of this city, also plunged into the deep water in trying to save Miss Rauch and were saved by rescuers.

The young women were wading in the river near the suspension bridge approximately 10 feet from the Polk county line, and none of them could swim. The dredger had recently operated at that place, and unaware of the deep holes it had made, May Rauch plunged into one of them. She called for help and immediately her companions responded, and had not John Paulus, manager of the Salem Fruit Union, John Trait, an employe of Brown's planing mill and Harold Starr, employed by the Salem Boat company, who were on the Salem side of the river, appeared so soon on the scene all would have been drowned.

Rushing across the river in a motor boat they arrived in time to rescue May and Ruth Rauch and Miss Brown. The body of Dorothy Rauch was recovered in 10 minutes but life had departed. Miss Smith's body was recovered in 20 minutes, but attempts to resuscitate her also proved futile.

Returned From Kansas Visit

On Friday afternoon of last week, Mrs. Francis Wesely, son Edward and daughters Rose and Lucy, returned from a two-months visit to Kansas relatives and friends. The party returned via San Francisco, where they spent a week looking at the big fair. All were very glad to get back to Oregon and think there is no other equal to the Beaver state.

Ed says many fields of Kansas wheat have been ruined by theessian fly and will not be harvested. Heavy rains has injured many other fields.

Mr. and Mrs. Chester Coffey were Silverton visitors Wednesday.

STEAMSHIP RESISTS SUBMARINE 4 HOURS

British Captain is Killed and Son Takes Post—The Raider is Forced to Flee

Queenstown, July 6.—With nine dead sailors stretched on her deck, eight men lying wounded below and her sides riddled with shot and shell the British steamship Anglo-California steamed into Queenstown harbor this morning after having withstood the attack of a German submarine for four hours.

The ship's escape from destruction was accomplished with no other means of defense than the indomitable spirit of her captain and crew, combined with masterly seamanship, which enabled her to frustrate the efforts of her assailant to torpedo her.

TORNADO SWEEPS OVER 2 COUNTIES

Four Inches of Rain Falls in Parts of the State in Half an Hour

St. Louis, Mo., July 7.—A tornado and cloudburst which swept St. Louis and St. Charles counties late today caused damage which may aggregate half a million dollars, isolated several small towns and deluged parts of this territory with four inches of rain in half an hour.

In spite of heavy property damage, no definite loss of life was reported, although railroad men say that the village of St. Peters had been blown away and that 40 persons had been killed.

St. Charles suffered most from the tornado, an area of more than 100 square blocks being damaged.

St. Charles Borromeo's Catholic church was wrecked, the storm tearing down the east and west walls and cracking the south wall so that it crumbled to the ground.

A wall and part of the roof of St. Joseph's hospital were torn away. The patients, though panic stricken, were removed to safety.

Several houses were damaged.

Special Premiums

The Linn County Fair is but two months away and the management is arranging for special premiums.

The first to be listed are by R. L. Ellwood, the owner of the Percheron stallion Fanchon, as follows:

For the best horse colt sired by Fanchon, 1st free service; 2nd \$5; 3rd \$2.50.

For the best mare colt sired by Fanchon, 1st free service; 2nd \$5; 3rd \$2.50.
