Farmers' Union Notes

As I have seen no reports from the Farmers' Union doings in your paper, I beg leave for a small space to report some of the doings of Richardson Gap local.

Sunday was our regular meeting day, and while not a very busy day, or a large turn out in membership, we are always doing something to boost the cause along. While our organization is Educational and Co-operative, the educational feature is the main spoke in the organization. While we have done some good things in the way of co-operative buyings, yet for a lack of education and understanding of economic measures, and a lack of realizing the powers and possibilities of the advantages of co-operation, we have not attained to that degree of efficiency which is possible, only by a more hearty co-operative fellowship among its members. We have slackers in the Farmers' Union as well as everywhere else, like balky horses, some always pulling and setting back in the breeching, while others are pulling up in the collar or rolling on the wheels to help things along, all the time.

We voted to have a Farmers' Union and Dairy Association picnic on Saturday, July 28, at the Richardson Gap Local Hall, and a big dance at night, to which everybody is cordially invited to come and bring well-filled baskets. All the members of the various locals of the county are earnestly requested to come, to this picnic or meeting. We expect some of the best speakers in the state to be there, to discuss various themes, of things pertaining to the uplift and betterment of the organization, and some very important things that are going to be undertaken, which you can know only by attending. There will be music and an interesting program with the days' exercises. Come everybody!

We would like to see communications from all the Locals in the county in the columns of The Tribune, as the editor says he would be glad to publish the same, as he was once a member of the Farmers' Union, and is interested in all things pertaining to the farmers interest, as he himself owns a farm.

Yours Fraternally,

GEO. L. SUTHERLAND.
