Paint! Paint! Paint

There is all kinds of paint and all priced paints, but when it comes to a first class paint the S. W. P. is the cheapest and best. Our prices on S. W. P. paint is cheaper than other paint pound for pound, as it contains more lead and zinc—the main elements that make a good paint. Therefore it requires more thinning and has a greater covering capacity. Our prices are the same to everyone whether you get your oil from us or not, by phone or in person. We will not raise the price either way.
