MAKING OF WHISKEY STOPS
 600 Distilleries Are Closed and 8000 Men Lose Their Jobs.

Washington.—Manufacture of whiskey ceased throughout the nation at 11 o'clock Saturday night, when the prohibitive clause of the food control act became effective. Importation of whiskey also stopped.

Millions of bushels of grain which food officials say would otherwise be ground up for whiskey will thus be released for food.

From one end of the country to the other men are affected by the drastic order. Over 600 distilleries and 8000 men will be out of business. There are 292 registered distilleries in Kentucky, 165 in California, 68 in Pennsylvania, 44 in Ohio, 28 in Maryland and Missouri, and 20 in New York—the states hardest hit.

German Drive is Slackened.

Copenhagen.—Leading German military circles consider that with the capture of the important naval bases of Riga and Duonamuende, operations on the Riga front virtually have been ended, says a Berlin dispatch to the National Ticker.

Munitions Inquiry Ordered by House.

Washington.—The defective munitions sent to General Pershing's army in France will be investigated by a house congressional committee.

SIX SUBMARINES REPORTED SUNK

Washington.—A battle between a fleet of steamers and six German U-boats off the coast of France was announced by the navy department Tuesday.

The battle took place September 5, the steamer Westwego reported to the department. Two vessels in the fleet were sunk and "probably all of the submarines were lost," the navy department announced.

Following is the text of the official statement issued on the battle:

"The navy department received a report from Paris which states that the steamer Westwego reported that while cruising with several other ships, was attacked by a massed force of six submarines off the coast of France on the 5th of September, the result of this attack being that two of the steamers attacked were sunk and probably all of the submarines were lost."

The Westwego is an American merchant steamer.

ITALIANS CONTINUE ATTACK

Gorizia Battle is Deadlock With Victory Apparently Impossible.

Udine, Italy.—The fight against the heights northeast of Gorizia continues night and day during good and bad weather. The continuous contest seems to the observer to be animated by superhuman force, the Italians and the Austrians constantly engaging in hand-to-hand encounters. A strange situation is brought about by the two forces, virtually equal in numbers, strength and determination, struggling for supremacy in a circumscribed arc where it is impossible for either side to employ more men or artillery. Gaps in the ranks are instantly filled and thus the contending forces remain so balanced that victory apparently is impossible to either side.

\$12,000,000 Spent by Red Cross.

Washington. — Approximately \$12,000,000 for war relief work in Europe will have been expended by the American Red Cross in the first six months since the United States has been at war with Germany, according to a report addressed "To the American People," by Henry P. Davison, chairman of the Red Cross war council.

American Victim of Raid on Hospital.

Washington.—The death of First Lieutenant William T. Fitzsimmons, medical corps, U. S. A., killed Thursday when German aviators bombed hospitals behind the lines in France, was announced in a dispatch received by the war department from the American embassy at London.

THE MARKETS

Portland.

Mails May Close to Disloyal Citizens.

Washington.—Closing the mails to disloyal citizens is under consideration by the postoffice department and the department of justice as another step in the government's campaign to wipe out disloyalty and sedition.

Raising prize cattle and selling fine clothes

The spirit that makes winners at the Fair is the desire to do a thing well, whether its raising grain, stock, or fruit. You put the best you've got into it, not for what you'll get out of it, but because you take pride in your work.

Its the same way in business; the winners are the ones why do a thing well because they like it, not primarily for what they are going to get out of it. We are in the clothing business because we can serve; because we can do something for you, because we want to do something for you. Of course we expect to get something out of it, but that isn't our first thought; our first thought is you

Because we feel that way, we carry Hart Schaffner & Marx clothes. They are all wool. They wear longer and look better than other clothes. They cost a little more money, but they're really economy in the end. You know it costs a little more money to raise thoroughbred stock, but it brings greater returns in the end. Well, its the same way with clothes.

Also a fine line of Ladies Suits, Coats, and Millinery
 Come in and look around. We have everything you need for the fair next week
