"JOAN THE WOMAN" is absolutely the last word in motion picture production
There never has been such a cast of stars in one picture

GERALDINE FARRAR

AS

JOAN THE WOMAN

THE GOLD MEDAL PHOTOPLAY SPECTACLE

This photo brings a message for you and I and America.

It stands with President Wilson's address

It thrills Men, Women and Children, and is told beautifully, wonderfully, by the marvelous photo-spectacle

IT WILL PAY YOU TO SEE IT

Must Register.

All young men who have become 21 years of age since June 5, 1917, are required to register their names with the county registration board on or before June 5, 1918.

This is most important, boys, and do not neglect it. You are now men in years and you are required to assume the duties of manhood.

FARM LOANS

We have loaned more than one million dollars on Willamette Valley farms and we have more to loan at the best terms ever offered. You can pay \$50.00 or more at any time and stop the interest. But if your crop is short you don't have to pay anything except the interest.

Does the bright sunlight make you frown? You may not care if you tan, but it is safe to wager you don't want the effects which strained eyes unprotected develop on your face.

If your eyes are strained, you need our assistance.

What the Threads Are For

Every one of the 196,000 threads in the Threaded Rubber Insulation of the Still Better Willard has a definite mission.

Every thread allows free passage to the battery solution. Through this multitude of tiny paths, the chemical action which means a good, strong current goes on with perfect freedom.

No insulation ever used has equalled hard rubber in ability to resist every-day wear and tear. No method of conducting current through the hard rubber has the efficiency of the tiny threads. And the combination is found only in the Still Better Willard Battery. Let us tell you more about this insulation and the battery that uses it.
