VOL. XXI. NO. 42.

SCIO, LINN COUNTY, OREGON, MAY 30, 1918

\$1.50 THE YEAR

MILL CITY HOARDER LOSES HIS TREASURE

Found that One of His Hiding Places
Had Been Discovered and
\$1800 Taken.

Mill City, May 25.—That the banking institutions of the country are safer places to keep money than a "sand bank," is the lesson learned here by George Sakular, a resident of Mill City for a number of years, who recently drew \$25,000 out of Albany banks and hid it away because he feared the banks might not be safe during the war. According to reliable reports he found yesterday that some one had found one of his hiding places and taken \$1800 which was buried there.

The incident has caused a great deal of speculation regarding the remainder of the money and friends of Sakular fear that it may be the cause of search being made by persons who might be inclined to take advantage of the situation.

According to reliable information Sakular drew his money out of the banks last year about the time the banks were discontinuing passing out gold. He demanded gold from the banks and succeeded in getting several thousand dollars in gold and the other was taken in currency and silver.

Sakular is an American citizen but is of Australian birth. He worked many years for the Hammond Lumber company. He secured timber land and last year sold it at a good price when it became known that the war would create a market for timber. Soon after that he drew his money out of the banks.—Dispatch to Albany Herald.

At The Peoples Theatre

This week, Saturday and Sunday evenings, Manager Wesely will present Ann Pennington in the "Antics of Ann."

A heavy hail storm did considerable damage to gardens south of Albany Sunday afternoon. During the storm lightning struck an old shed belonging to C. C. Lee, which was set afire and destroyed. This last incident is something very unusual in the Willamette Valley.

ON BEHALF of the RED CROSS

We Thank You

For your presence at Saturday's Red Cross Sale.

The profit on the sales netted the organization a neat sum.

If you like us
If you like our store
If you like our displays
If our service pleases

CALL AGAIN

This is Wall Paper Season

Treat Seed Potatoes.

Stanley V. Smith, county agricultural agent, says that disinfecting seed potatoes will kill several potato diseases, such as scab and black scurf, and help to control other diseases such as wilt, black leg, dry rot, etc., provided, of course, that the potatoes are not planted in soil already infected with the diseases.

The formaldehyde treatment is not effective against black scurf and other diseases. The corrosive sublimate treatment will control the other diseases as well as scab, so is being quite generally used instead of formaldehyde.

Dissolve 4 ounces of corrosive sublimate (mercuric chloride) in a small amount of hot water, and after it is dissolved add enough cold water to make 30 gallons. Soak the potatoes (before cutting them) one and one-half hours in this solution and then dry them. After cutting it is a common practice to sprinkle with land plaster. This solution should not be used more than four times, as it becomes weakened by that time, and a new solution should be made up.

It should be dissolved in a wooden, earthen or porcelain container, as it corrodes metal and rapidly loses strength. Corrosive sublimate may be obtained at any drug store, says Mr. Smith, for about 20 cents an ounce.

Hides Low, Leather High.

A few weeks ago the Iowa Farmer gave information relative to the holdings of hides in cold storage to create what would appear to be a shortage in hides in order that excessive profits in leather and leather goods might be obtained. S. M. Greene of Jefferson, has been investigating matters from a local viewpoint and he says there is something rotten in the leather market. Some classes of harness leather cost the harness maker 90 to 95 cents a pound, and all kinds of harness goods and shoes and half-sole leather and the like have gone sky high in price. And yet Herbert Cain, living south of Scranton, told us Saturday that he could only get eight cents a pound for a couple of good cow hides last week. Hides have been higher than that for years, sometimes up as high as twenty cents a pound.

Why should they be down to eight cents a pound now, if leather is so scarce? It looks as if there was a big nigger in the woodpile somewhere. The meat packers control the leather market, and from disclosures made recently by the investigating committee, the people are informed that there are hides stored by the packers in order to keep up the price of leather. This low price for hides adds color to this theory.

While the Government is busy with the big problems of the war, somebody is exploiting the leather business for enormous profits, robbing the people both ways—on the prices paid for raw hides and on the prices they have to pay for harness, shoes, etc. The people are getting mad enough on this war holdup business to crack somebody's head.

Joe Warwick is general hotel chore boy under the new management.

AMERICAN DOUGHBOYS SHOW RIGHT STUFF

Kaiser is Wise in Making Supreme
Effort Before the 1,500,000
Yankees Arrive.

Washington, May 28.—American troops in Picardy attacked this morning on a front of one and a quarter miles, captured the village of Cantigny, took 200 prisoners and inflicted severe losses in killed and wounded on the enemy, says General Pershing's communique. The American casualties were relatively small.

The Croquet Season Opens

Four mighty gladiators, devotees of the ancient and honorable game of croquet, displayed themselves on the green in front of The Tribune and warmly contested a game with mallets and balls, evidently endeavoring to drive the balls through little iron hoops called wickets. We do not know who came out of the contest victorious but as there was neither a fight nor a foot race we have no casualties to report. All of the combatants were above draft age, which may account for the bloodless contest.

An Up-To-Date Drug Store.

The Santiam Pharmacy, Thomas W. Laird, proprietor, is one of the progressive up-to-date drug houses of the Valley. In point of neatness and cleanliness it has no superior. Last week Mr. Laird added an improvement, of his own origination, for the purpose of displaying goods with their prices, which is exceptionally nice and adds much to the handsome appearance of the store. Mr. Laird is certainly an up-to-date merchant and is entitled to the lucrative patronage he is receiving.

The last Parent-Teacher meeting for the school year will be Friday evening of this week.

The 10-year old son of W. A. White was thrown from a horse on Tuesday. He fell on a barbed wire fence which cut into one of his legs to the bone. The boy was taken to the Scio General Hospital for treatment.

The Huns are now making another drive to break the English-French line, but do not seem to be making headway other than having their soldiers slaughtered. General Foch, commander of the allied forces, seems to have the situation well in hand.

Mrs. Emma Cyrus and son, Karl, Mrs. Dixey Hagey and daughter Coline, and Frank Morris motored up from Portland, reaching Scio at 11 o'clock, Saturday night. They would have made the drive in one hour less time but for a blowout. About four hours is required to make the drive.

A very warmly contested game of croquet Sunday afternoon, was suddenly brought to a close by old Jupiter Pluvius. The game drew only few fans, but the earnestness of the players made up any deficiency in this respect.

Three More W. S. S. Organized.

The school children have organized a War Savings Society to be known as "Stamp (war stamp) the Hun." Roy Bilyeu was elected president and Dorris Weddle secretary.

The Bilyeu W. S. S., organized by the Odd Fellow and Rebecca lodges, was started with an enrolment of 13 members. J. L. Calavan is president and Mrs. Walter Bilyeu secretary. The society was named in honor of Ralph Bilyeu, the first member of the lodge to enlist.

The Guy Prichard W. S. S. of Jordan, also named in honor of an enlisted man, was organized last week with Mrs. Nellie Thomas president and Miss Elva Wing secretary.

A meeting of the Scio War Savings Society was held Monday evening at the city hall. Meetings are held on the last Monday of each month when all are invited to attend and help along the good work. This society numbers 97 members, with the roll constantly increasing. Mrs. Julia Bilyeu is president and Mrs. J. D. Densmore is secretary.

Fight at Gilkey.

An altercation at Gilkey station between Antone Holub and Joe Michelec Saturday, resulted in the arrest of Holub on a charge of assault preferred by Michelec. The affair arose out of an argument over a fence. According to the story told by Michelec, who received a broken hand in the fray, he was employed by Mrs. Josie Snirdl, sister of Holub, and Saturday evening was repairing the fence dividing the Snirdl and Holub estates when Holub attacked him. Holub is alleged to have struck with a board at Michelec's head, but the latter warded off the blow with his hand, receiving a broken knuckle. He came to Albany to secure treatment and swore out a warrant for Holub's arrest.—Albany Democrat.

Judge Kelly Defeated.

Linn county people who have known Judge Percy R. Kelly from his boyhood, regret the fact that he is defeated for the state supreme bench by but a few votes. They know that he is honest and competent in every way for the position and the state, outside of Portland, was more than willing to assist him to the coveted place most jurists have ambition to reach. While the people of the third judicial district regret his defeat, they are very glad that he is the presiding judge of department No. 1, where they will keep him as long as he desires to remain. A just and capable judge is the great desideratum in our courts, and we know we have such in the person of Judge Percy R. Kelly.

Because of lack of patronage, our pool hall has quit business and our moving picture show, owing to heavy expenses, may soon close for the same reason. But let us not become pessimistic. The condensery may again be placed in operation, and the war may soon be over, when Scio will again claim and receive her own.

CONFESSED SLAYER TAKEN TO KALAMA

William R. Horner Goes Back in
Old Ford—Lynching is Not
Feared.

Seattle, May 26.—William R. Horner, alleged murderer of Mrs. Nellie Bassett and her two children, who spent Saturday night in the King county jail and there made his confession of the triple murder at Kelso, which startled the Northwest a week ago, was today taken to Kalama, county seat of Cowlitz county, in which the crime was committed.

Horner was taken south by Sheriff Studebaker of Cowlitz county, Sheriff Ward of Okanogan county, and Prosecuting Attorney Spaulding of Cowlitz county, the quartet riding in the old Ford automobile in which Horner and his three victims traveled over the same road less than ten days ago and by which the capture of the alleged murderer was so speedily effected.

Candidates Ryan and Hoff for state treasurer, seem to be playing the game of "perhaps" as to which will win the nomination. It may require the official count to decide the matter and then "perhaps" a contest.

So far as we can learn no organized observance of Memorial Day will be made in Scio, though almost everyone will go to the cemeteries and scatter flowers on the graves of their loved ones.

FOR THE GRADUATE.

Commencement day stands out as one of the big occasions in life. It celebrates the first achievement to receive public recognition. It is a proud day for graduate, parents, friends.

It is very natural that an occasion of such importance be celebrated with fitting gifts of permanent value. Perhaps we can help you select a suitable gift.

Guard Baby's Health With Pure Lime Water.

As lime water is used mostly for babies, too much care cannot be taken in its preparation.

Ordinary builder's lime and city water are not good enough according to our idea. We use pure lime and distilled water in making our lime water, and make it fresh each week.

It will cost you no more than the ordinary kind which some druggists sell.
