VOL. XXII. NO. 1.

SCIO, LINN COUNTY, OREGON, AUGUST 15, 1918

\$1.50 THE YEAR

HENNINGSEN COMPANY IS STRICTLY RELIABLE

Offers Inducements to Farmers to
Increase Herds. Scio Ideal
Dairy Country.

To him who sees the light the future holds good things in store. Now that we have one of the largest and most reliable milk products organizations in the northwest, the Henningsen Produce Co., as the owner of our condensery, the dairymen of eastern Linn and Marion counties can increase their herds with the assurance that the Scio condensery will be made just as big as the dairy interests of these sections can make it. In other words, it is up to you Mr. Dairyman, to make this one of the best dairy centers of Oregon. The various methods of utilizing the raw product enables the company to at all times pay the top price to the dairymen. The amount of milk that these people can handle is well illustrated in a remark made by Mr. Henningsen to one of our Albany bankers the other day when he said: "We desire more milk in the same sense as the banker desires more deposits." This was as much as to say the demand for milk is practically unlimited.

It is to be hoped that our farmers and dairymen will soon realize the all important fact that they have a safe and profitable market for all the milk they can produce and that they will lend their undivided support by patronizing the condensery with every pound of milk they can spare.

To those who are withholding their patronage for lack of faith let me say that if my word of assurance as to the honesty and stability of these people is not sufficient, they have only to examine the record of the Henningsen Produce Co. covering a period of 30 years (obtainable thru any bank) then be their own judge.

Now that we understand each other, let us square away and go to it.
E. C. PEERY.

As evidence that everybody works these days, including father, three men in one harvest crew near Scio totaled 211 years in age.

A Stranded Soldier.

Saturday afternoon a Canadian soldier was on the streets of Scio stranded, or in other words dead broke. His papers showed he was on a 90-day furlough. He had been wounded and gassed on the battle front in France and was endeavoring to reach San Francisco where he said his folks resided. They had resided somewhere in the East when the son enlisted in a Canadian regiment and had not informed him of their removal. His first appearance in Scio was near the school house. The heat had overcome him and was found by Walter Bilyeu in a fainting condition. Walt took the man to his home and called Dr. Merriam. Recovering somewhat after resting he was kept over night. Walt raised a purse of \$15 and took the man over to Albany, fully satisfied that the soldier boy was just as he stated, stranded and endeavoring to reach his parents in San Francisco.

130,207 Men Called.

Washington—Calls for 130,207 draft registrants qualified for general military service to join the colors before the end of August were issued Friday by the provost marshal-general.

One hundred thousand white registrants from 43 states are ordered entrained between August 22 and August 30. Twenty-one states and the District of Columbia are directed to furnish 30,207 negro registrants, to entrain August 22-24.

These orders bring the number of men called out in August to about 300,000, the number contemplated in the present military program.

Following are the states from which the white men now called will proceed to Camp Lewis: Nevada 150, North Dakota 1000, California 2375, Colorado 800, Idaho 500, Oregon 1000, Utah 1125, Washington 1400.

100,000 Oregon's New Call.

The following information relative to the new draft call comes from the Adjutant-General's office at Portland:

"It is necessary to acquaint the general public with the requirements of the draft law. The occasion is the change in the draft age to men between 18 and 45 inclusive.

"Approximately 100,000 Oregon men will be affected by the new law. All these men will be required to register on a day probably early in September. Every man subject to registration must register under a severe penalty if he does not.

"The undertaking is a much larger one than was the case when the original registration was from 21 to 30. The number of men to be reached under the new law is much larger.

"Only by the same patriotic co-operation that we have enjoyed from the press before can this big task be accomplished in the very short time allowed for it."

When J. D. Densmore attempted to tie a bull in a stock car Tuesday the animal showed fight and bruised Densmore's shoulder. The car of cattle was being shipped to Portland. |

SANTIAM FARM TOPICS

Everything is floating along nicely like a leaf on the stream.

Mr. Horsburgh came near losing his big stock barn. After the threshers left Tom Smail went to the barn and found two small fires, evidently started by sparks from the engine.

Mr. Weaver, who lives on the old Gillard farm, has a patch of evergreens which bring him 27½¢ gallon.

Two more crops to thresh and this section will be cleaned up with fair yield. We'll have a little to keep soul and body together until the boys get the Germans cleaned out.

Bro. Fillpott called Sunday and we all attended the picture show.

G. A. Griffin had a close call with his auto Sunday. He started for Salem with his dog on the running board. Coming around the hillside north of Santiam farm he caressed his dog and found himself steering across the road, the car headed down hill to a 9-bar Philippi wire fence. It broke three oak posts, missed a big apple tree, down thru Pie Eater's orchard, missing trees and jumping ditches like a cayuse mule with a cockle burr under its tail, and landed right side up in the old man's barn lot without a scratch. (What became of the dog?—Ed.)

The old man had the pleasure of meeting Jefferson Myers, wife, son and daughter, and Captain E. S. Edwards, all of Portland, on Sunday.

So many auto accidents have about put the old man out of the notion of buying a new wheelbarrow as fear in taking my better half out for a joy ride I might be like the blind man who said, when asked by the preacher how he was: "I'm in a hell of a fix; I wouldn't have had both eyes knocked out for a dollar."

I wish to relate a little incident that took place in Missouri during slavery days and I was a small boy. The Methodists were holding revival and made a lot of converts among them being Old Joe, a negro. They started baptizing, leaving Joe to the last. When his turn came the minister led Joe into the water waist deep, started a cock and bull story, threw Joe on his back and shouted amen. Joe came up almost strangled. His master came up to console him, saying "Joe, don't you feel better now?" Says Joe: "Massa, if they don't quit this darn foolishness some man will lose a nigger."

The moving picture show went off nicely with a full house. Food Administrator Schmitt of Albany gave a talk on economizing on sugar and flour and wound up with a testimonial of his faith in God.

Almost cold enough to frost which would hurt worse than drouth.

PIE EATER.

Advertised Letters

The following letters remain uncalled for in the Scio postoffice:

Ray Munson, Miss Isabell Thomas, Mrs. Ida Smith. Held for better address: Viola Mills.

KEEP OUT!—I have been annoyed with people running in and out of my pasture, knocking down fences, etc. So I hereby warn all persons not authorized by me to keep out.
John F. Kukacka.

Quota to be Doubled.

Salem.—Oregon's fourth liberty loan quota probably will be double that of the third loan according to information contained in a letter to Governor Withycombe from James K. Lynch of San Francisco, governor of the federal reserve bank there. The quota of the last campaign was \$18,495,000.

"The secretary of the treasury has informed us that the fourth campaign will last three weeks, commencing Saturday, September 29, and closing Saturday, October 18," states Mr. Lynch in his letter. "As no further particulars have yet been announced the indications are that the amount will be so much in excess of previous liberty bond issues that it will call for the greatest possible effort on the part of all interested in making this loan a complete success.

"This can be better appreciated when it is remembered that of the \$3,000,000,000 third loan the 12th district's share was 7 per cent, or \$210,000,000, which means that if the next loan is \$6,000,000,000 this district's portion would be approximately \$420,000,000, and therefore practically double the quota allotted to Oregon in the last campaign."

For a real good time attend the picnics and dances at Novak's grove given occasionally by the Bohemian societies for the benefit of their Red Cross. Sunday one of these entertainments was given and besides having a good time something near \$80 was realized for the Red Cross.

E. C. Peery, trustee in bankruptcy for the Scio Condensed Milk Co., informs The Tribune that he realized \$10,015.94 in the sale of the condensery property. The appraised value was about \$8500.

Miss Hazel Philippi is visiting in Portland.

CONDENSERY IS SCIO'S MOST IMPORTANT ASSET

A Constantly Increasing Pay Roll.
Will Build Up Our Town
and Community.

Scio's one manufacturing industry is our condensery. All of the output therefrom brings in outside money. The monthly pay roll for milk may be increased to any amount, depending entirely upon the farmers and dairymen. The condensery will be enlarged to a capacity to care for any amount of milk and, best of all, the bills will be paid promptly on the 10th of every month.

Any idea that farmers and dairymen may have that the Henningsen Produce Company is in the same class with the Logan Commercial Co. of Seattle and the company which fleeced the milk producers so successfully, should be abandoned. The Henningsen people are absolutely solid and do business on the square. They will pay for ever gallon of milk taken to the factory. There is and can be no risk whatever on this feature. Send your milk and you will get your money and at \$3 per hundred, the price now being paid, will bring a handsome check each month.

By courtesy of Manager E. C. Peery, this writer inspected the plant Monday afternoon. While improvements may and doubtless will be yet required, what has been and is being done is of a permanent character, and the best and latest improved material is being used.

A four-ton ice making machine with a complete cooling or ice room, has just been completed and is now in service. If milk is brought to

Don't You Sometimes Hate to

Shave Yourself In the Morning?

Everything
Necessary
For the
Man Who
Shaves
Himself

It is a
Pleasure
to Serve
You

Guess you remember a few mornings ago when you stood for a couple of minutes trying to make up your mind whether you would shave yourself or not. What was the reason for this? Was it the soap? Was it the razor?

There is no need for this if you have the proper lather. We very strongly recommend REXALL SHAVING CREAM. It lathers quickly and freely and if well rubbed onto the face will soften the beard so that shaving becomes not only easy but pleasant. If you prefer stick or powder, we have the same excellent quality in these.

The razor is of course important and we would be glad at any time to show and advise the right kind for your beard and skin.

A little talcum, there's a special kind for men, gives a finishing touch and makes your self-shave as enjoyable as any your barber ever gave you.

C. A. EVERETT, Druggist
