The Tribune's printer has 148 acres on the headwaters of the Yaquina, four miles from Nashville on the C. & E. with 5-room house and good barn that he will trade for smaller place near Scio. Having unlimited outrange this is fine place for stock. Good soil.

It was reported in Scio Monday that Miss Helen Metcalf, another one of our teachers and boarding companion of the late Miss Rachel Angel, was dangerously ill with the flu at her home in Albany. Later reports say that she is improving.

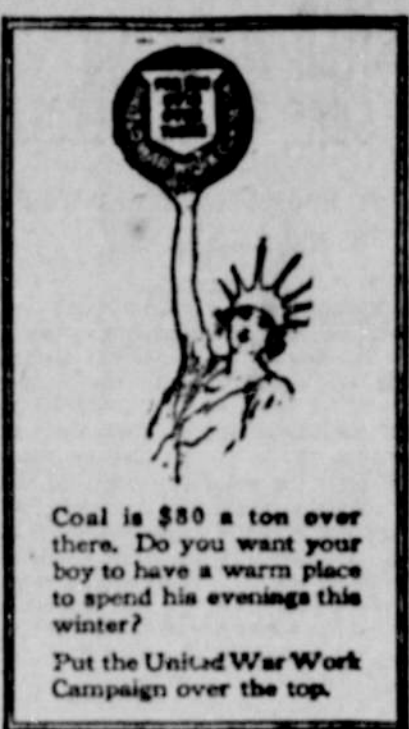

Ed G. Balschweid, who has a good job at Washougal, Wash., came up home for a few days' stay last week. Ed is carpentering for the Washougal condenser and gets \$5 per day and board. The same people who own our condenser in Scio own that at Washougal.

Miss Grace Gill, who is one of the teachers in the Astoria schools, is enjoying a visit with home folks in Scio during pendency of the flu. She states that deaths from flu and pneumonia were too numerous to be pleasant for a while though the high point of the epidemic seems to be passed.

We overlooked mentioning the return of Mrs. A. G. Prill from a two months' visit to New York state. She expressed herself as being glad to get back to Oregon where all is peaceful. There is much of the panoply and din of war back there with an occasional powder mill explosion to give a reality touch.

Uncle Nathan Young and daughter, Mrs. Jennie Warner, came over from Corvallis Saturday. Uncle Nathan has just recovered from a severe sick spell. "At one time I did not expect to return to Scio alive," he said. But he is now able to get about fairly well. When he left Scio last spring he weighed 180 pounds. He got down to 140 at one time but is now on the increase, having gained five pounds over his low weight.

Talk about the copperheads of Civil war days. They were simply trying to worry and break down the Lincoln administration just as Roosevelt and Lodge and Penrose and Smoot are trying to worry and break down the Wilson administration. Extreme partisanship was the basis of the assaults of the copperheads on Lincoln and these other copperheads are assaulting Wilson in the same way.

Latest Election News.

As The Tribune goes to press the latest congressional news is that the republicans will have a majority of 16 in the lower house with the margin very close in the senate, with probability of democratic control.

In the state McNary leads over West by 18,000 to 20,000. Withcombe leads Pierce by 12,000, with a hot race between Olson and Coke, republicans, and Bennett, democrat, for supreme judge.

Republicans elect all other state officials.

In the county the race between Garland and Porter is close. Representatives elected are: Thoms, Childs and Elmore.

County judge, Bilyeu. Sheriff, Kendall. Commissioner, Pierce. Recorder, Velma Davis. Treasurer, Lenore Powell.

All other offices will be filled by republicans.

Best Big Sisters.
The Y. W. C. A. is known as "The Best Big Sister in the World." Of the \$170,500,000 to be raised in the United War Work Campaign \$15,000,000 will go to the work of this organization.

Now They're Mollicoddies.
Dandies who are making their reappearance at the Royalty theater, were fast disappearing when Queen Victoria began her reign, says the London Times.

Extravagance in dress and manners did not of course originate with them, but in earlier times there were other names for those who were noted for similar eccentricities. They were called beaux in the days of Queen Anne and the earlier Georges, "fops" and "sparks" being scornful synonyms.

In the latter half of the eighteenth century these fashionable fops were known as macaronis, and the dandies may be said to have come in during the regency.

In spite of a subnormal food supply in this country the American people have been able to ship to the Allies as well as our own forces overseas 141,000,000 bushels of wheat, besides 844,600,000 pounds of meat, during the year ending June 30 last. This has been made possible by the wholehearted co-operation of the people, who, besides practicing self-denial, have speeded up production and responded nobly to the appeal from abroad.

Food Administrator Hoover, in a letter to President Wilson, gives a brief summary of the results of food conservation in the United States and of the activities of the Food Administration to this end. The conservation measures have been put through practically on a voluntary basis which is regarded as a splendid tribute to the patriotism of the American people.

Meat shipments were increased 844,000,000 pounds during the first fiscal year, as compared with our meat exports during the year before America entered the war.

"The total value of these food shipments," Mr. Hoover wrote President Wilson, "which were in the main purchased through or with collaboration of the Food Administration, amount to, roundly, \$1,400,000,000 during the fiscal year."

In 1916-17 the United States sent the Allies 2,106,500,000 pounds of meat. In 1917-18, with voluntary conservation practiced in America, and aided by extra weight of animals, we sent the Allies 3,011,100,000 pounds of meat, an increase of 844,600,000 pounds.

Wind Mill and Tower For Sale.

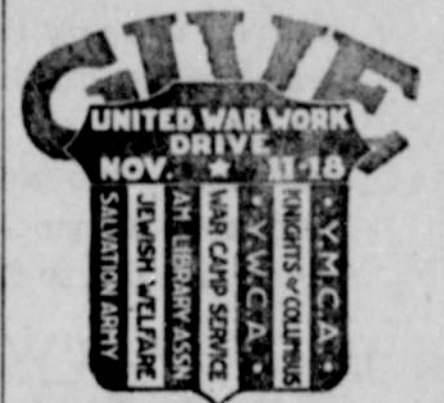

John T. Brock has an 8-ft steel wind mill and steel tower for sale. The mill has been used a short time but is in first class order—good as new. Has ball bearings and all modern improvements. The tower has never yet been set up. The whole can be bought for \$75, which is less than one half of what the cost was two or three years ago and not one-third of what the cost of a new one would be now. It is a splendid bargain. 11tf
