The weather clerk is certainly trying for a record in the brand of weather he is giving us this fall. He evidently knows that farmers are short of help and is extending the seeding season for that purpose. The Tribune predicts a banner crop in the Willamette Valley next year.

The Tribune's printer has 148 acres on the headwaters of the Yaquina, four miles from Nashville on the C. & E. with 5-room house and good barn that he will trade for smaller place near Scio. Having unlimited orange this is fine place for stock. Good soil.

Leonidas Lodge No. 36, K. of P., has contributed 19 of its members to the U. S. army and navy.

Hotel Scio is to change proprietors today. The new owners and managers are Mr. and Mrs. Huntley.

Tom Small is head failer for the Gates Mill Co. Presumably he has been lured to the woods to take a rest from farming operations.

The Benton County Courier this week has an item under the caption "A Little Snow Came Friday." The aforesaid snow came in the shape of a son born to Mr. and Mrs. Snow.

Considerable stir in town this week to find out where three young men, slightly under age, obtained the means upon which to get drunk on Monday, November 11.

Manager N. I. Morrison reports that the several school districts over which he has supervision for the United War Fund, have about all subscribed their quotas and that his territory is entitled to the hundred per cent mark.

School began Monday with one teacher short. No one satisfactory to the board could be found to take the place of the late Miss Angel so her grades were divided among the other teachers.

It is reported that Mr. and Mrs. Dan McLachlan have returned from California, where they went two weeks ago expecting to spend the winter. They say there was too much Spanish flu down there to suit them.

Robert Wheeler of Santa Barbara, Cal., is a guest at the Scio hotel. He is looking over this section of the valley with a view of buying a small farm near town. He says there is too much sameness in the California climate to be really enjoyable; that of Oregon is preferable. The present splendid weather delights him.

Thomas W. Laird returned from the burial of his father at Coquille Tuesday. He said that his father was drowned in Lynn canal when the Princess Sophia went down recently. The body was recovered very quickly after the disaster and sent to his home. Deceased was 60 years old and was returning from his final trip to Alaska.

A. P. Henningsen, president of the Henningsen Produce Co., his father, Mr. Henningsen, W. P. Henningsen, all of Portland, Mr. Horgan, of Tacoma, and Roy Goodhue, of Spokane, were visitors at the condensery yesterday. They expressed themselves as being well pleased with their Scio property and future business outlook. They contemplate quite extensive improvement to the condensery property in the near future.

The President's Journey to Europe.

The intention of President Wilson to attend a meeting of the Peace Congress at Versailles will meet with the approval of Americans. The Peace Congress will decide the future of most all nations of Europe and of some in Asia and Africa, and will, in effect, draw up a new constitution for the world. It will be attended by the premiers of all the allied countries, with whom the president will rank.

Mr. Wilson's presence is needed because of the high position he holds in the councils of the allies and of the implicit confidence which all the allied peoples repose in him. He has defined the war aims of this and the allied nations in terms which have won acceptance among them and, finally by our enemies. He is best qualified to interpret and explain his fourteen principles and to bring them into complete harmony with the views of the French, British and Italian premiers. He can render valuable service by establishing sympathetic personal relations with the allied statesmen.

There is no force in the possible objection that no former president has left the territory of the United States during his term of office. This is a time when new precedents are being made in war, diplomacy, statesmanship, and every other field. Never before was there such good occasion for the president to go abroad. Nor will the president's absence from the country seriously obstruct performance of his functions. He will not, as would have been the case before steam power and telegraphy came into use, be cut off for weeks from communication with his subordinates. The voyage will occupy a week at most, and he will throughout be in wireless communication with both America and Europe. He will be able to send instructions to his cabinet or messages to congress by cable or wireless. If an important bill should need his signature, it could be sent to Versailles and be back in Washington in two weeks. A journey to France will place him no more out of touch with Washington than would a journey to Oregon.

Of the nature of Mr. Wilson's reception in Europe there can be no doubt. He will be received as the head of the nation which came to the aid of democracy in the hour of its greatest peril. His speeches since the United States declared war have been an inspiration to all free peoples and to all peoples struggling to win freedom to continue the fight. He, more than any other man, defined the issue as one between despotism and democracy. His utterances led to the disintegration of the Hapsburg monarchy and they did much to break the morale of the German army and people. His visit to Paris and the other allied capitals will be a fit climax to America's part in the war.—Portland Oregonian.

HOW YOUR MONEY WILL HELP "BOYS"

Official Statement of Seven Great Welfare Organizations.

Citizens of Oregon, in the week of November 11-18, will respond to the call of the United War Work Campaign for funds to make happy and effective the fighting men of the Nation. That the citizens will uphold the commonwealth's notable record in doing its share to win the war is taken for granted, once the needs are understood.

Oregon's quota in the joint drive of the seven great organizations doing war service work is \$770,000. President Wilson authorized this united drive and named the participating bodies. The purposes for which the funds are needed and to which they are dedicated are vital to the war's success.

The Y. M. C. A. has more than 2000 huts in the great battle zone and is ministering to the boys overseas, in trench and camp, leaving undone nothing it can do to help them. In America the "Y" is in every camp and cantonment. It is with the boys "crossing over" and, at request of the War Department, has recently joined in the task of instructing selectives even before they are called.

War work of the Y. W. C. A. is thus outlined by Mrs. William MacMaster, state chairman:

"Already we have in this country 2,000,000 women doing actual war work, while another 2,000,000 have released men for service by undertaking their work. To the Y. W. C. A., 'the best big sister in the world,' has been committed by the government and military authorities the serious responsibility of directing the thought, creating the environment and furnishing the material needs of this army of girls. Already 165 hostess houses have been opened, War Service Clubs organized, the Patriotic League created, nurses sent where needed and now we are asked to furnish emergency housing for thousands of girl war workers."

John W. Kelley, associate drive director, says of the Knights of Columbus: "Knights of Columbus halls are in operation in all cantonments, training camps and naval stations in the United States and the halls are also established with the American Expeditionary Forces in France, Italy, Russia and England. The motto is 'Everybody Welcome,' service being given irrespective of race, creed, or rank. Millions of cigarettes, pipes, bouillon cubes, gum packages and tons of chocolate have been given free to the soldiers overseas. One of the specialties is the promotion of athletics and a considerable item in the budget is for baseball equipment, boxing gloves, etc. In the war zone the troops are followed with motor trucks which are virtually traveling huts, fully stocked with athletic goods, stationery, cigarettes, and the like."

Needs and activities of the Jewish Welfare Board, explained by Ben Seiling, are:

"In one year the number of our field representatives has grown from 10 to 113. Now we are faced with the demand for 400 additional workers in this country and 100 overseas. The money going into our fund pays necessary expenses and salaries, furnishes Bibles and prayerbooks by the thousands and letterheads and envelopes by the million, and provides camp, educational and recreational activities for the fighters, both here and abroad."

"War Camp Community Service," explains Emery Olmstead, state chairman, "developed from the commission created by the War and Navy Departments, first known as the Postick Commission. The community is its particular field and thousands of workers are assisting the towns in caring for visiting soldiers and sailors, providing wholesome amusement and clean recreation and surrounding the camps with hospitality."

Functions of the American Library Association, says William L. Brewster, state chairman, are "to provide books and reading matter to the soldiers and sailors through co-operating agencies and directly." Thirty library buildings have been provided at cantonments; 3,750,000 donated books distributed; 1,000,000 books and tons of magazines sent abroad, and 600,000 needed military technical books bought and given the men.

These are some things the Salvation Army does, according to O. C. Bortz-meyer, state chairman:

"On lines of communication our huts are open day and night. Then, following their methods, our men and women go right to the trenches and distribute chocolate, coffee, doughnut, and pies. Sixty per cent of the 1000 workers are women. We have now 703 huts and 40 ambulances in service. In the past few months aid has been given the Red Cross in sending abroad 100,000 parcels."

Food Prices Leap Upward.

Washington, Nov. 19.—Retail food prices were 2 per cent higher during October than in September, the bureau of labor statistics announced today. An increase of 16 per cent was reported for all articles of food during the past year and in comparison with prices for the 5-year period from October, 1913, showed an average increase of 75 per cent.

Wind Mill and Tower For Sale.

John T. Brock has an 8-ft steel wind mill and steel tower for sale. The mill has been used a short time but is in first class order—good as new. Has ball bearings and all modern improvements. The tower has never yet been set up. The whole can be bought for \$75, which is less than one half of what the cost was two or three years ago and not one-third of what the cost of a new one would be now. It is a splendid bargain. 11tf
