"Eggs is eggs" and are sold by count; it would seem that any honest person ought to be able to count eggs. So thought a farmer who brought in 23 dozen (counted and verified by several members of the family) and turned them in to a dealer who would only account for 20 dozen. What became of the balance? The end is not yet.

YOU FEED YOU CONSUMER YOU WHAT

Scio has needed since Heck was a pup is a **Feed Store** carrying a full line of feeds all the time Mr. hog-feeder, so that when you put up a bunch of hogs to finish and start them out on a certain kind of feed you can be sure you don't have to change feeds in the middle of a feeding period.

A doctor, ordering a pork and beans diet for a fever patient, would be using as good judgment as the feeder changing from a barley ration to bran in feeding hogs. This change was forced on some of the feeders during the past season in the Scio vicinity. There is no need of it happening again.

Competition is a service getter, and all that is necessary to guarantee you access to a line of feed in Scio second to none in the Valley, at right prices, is your support and patronage.

We pay cash for our feeds and thereby get them at prices that enable us to compete with Salem or Albany, and in some cases we can undersell either place.

We are selling for Cash, as we can handle feed on smaller margin by so doing. Will soon have a warehouse completed at West Scio to store feed and hay and allow the farmer who buys in load lots to save \$1.50 per ton haulage.

Give the game a boost and try us out and see what we can do for you. We are not strangers to the business. We know good feed when we see it; also know how and where to buy it; and how to feed it.

Drop in and get acquainted the next time you are in. We have not got a full line in stock for lack of room just now, but will have soon. We can fill your order today for—
