Young Bull Taken Up.—A young bull came to my place about one month ago, which I have taken up. The animal is not yet two years old; is marked as of Holstein blood with a slight strain of Jersey. Last week The Tribune was at fault in stating that the marriage of two of our young townspeople was about to occur. We plead guilty to being premature. But open secrets should be kept from newspaper ears and that is hard to do. Yet the marriage is to occur early in the ides of March, just the same.

We make a specialty of Friendship, Engagement and Wedding Rings. F. M. French & Son, Albany, Oregon.

Ed Gilkey of the Alaska country, who has been visiting relatives in this vicinity for the past two months, started on his return Sunday. Ed has been working for the Standard Oil Co. up there for several years but may not work for the company any longer. He had two propositions offered him since he came down one of which he may accept. Ed went to Alaska 21 years ago and this has been his first visit home. He has grown in weight since he left here, a generation ago, but he looks extremely healthy, as if the northern climate agreed with him.

George Sutherland says catching fish and catching widows are different propositions and tells the printer that if he wants to catch the latter he must bait his hook differently.

Game Warden Hawker was over Friday and told the printer that the restriction on fishing in upper Thomas creek would be off Saturday and he could go as far as he liked up Jordan creek for which he has been pining ever so long.

Gail Jones returned from the army last week but not in time to get his name in The Tribune's issue for that week. Gail was fortunate in his army experience. When he enlisted he was sent to the Hawaiian islands where he served the large part of his time. After returning to the U. S. his camp was in California.

J. L. Calavan is now carrier for route No. 4 out from Scio. He holds the place tentatively, or until Mr. Mespelt, the oldtime carrier when the route was out from Thomas, returns from the war. If Mespelt does not care to resume the route when he returns, "Loffy" will be the permanent carrier.

Mrs. Jennie Warner of Corvallis, was in Scio last week. Report has it that she came over to prepare her father's home (Grandpa Young) for his reception. The old gentleman, now about 90 years of age, is confined to his bed at the home of his son-in-law, A. J. Johnson, in Corvallis, much of the time. He has often expressed a desire to be at his own home in Scio and Mrs. Warner, upon whom most of his care depends, will humor his desire.

THE WAR IS OVER

All signs point to continued opportunity and prosperity for the American farmer. High prices for grains and big demand for all foodstuffs are his main inducements for continued increased production. The ending of the war has released for farm financing millions of dollars until recently required in other directions. It will release for farm work before next season thousands of the "Boys" taken from the farm. These things combined will enable the farmer to take advantage of his unusual opportunities.
