ARMY SURGEONS REBUILD YANKS BODY AND MIND

West's Crippled Heroes Being Fitted to Make Their Own Way.

Reconstruction—no, that's too prosaic. Regeneration is the only word that can describe the remarkable work of rebuilding the wounded in the military hospitals. One feels, after a tour of one of these hospitals, that he has been permitted a visit to a divine workshop where men are fashioned in parts, put together, and taught to function. God made Adam of dust, but these modern scientific surgeons make their men of wood and iron, gold and silver, bone and clay. That is the physical.

Of the mental and spiritual—that which is intangible—well, only this: these surgeons blow into their men of wood and iron, gold and silver, bone and clay, a spirit. And having blown into their product this spirit, they feed the spirit. Then months later from this hospital walks a man who was a machine before his legs were blown off at Chateau Thierry. Now he is a draughtsman on his way to a job, confident, happy, independent. He is walking on legs of iron and wood. You would have to see him take them off before you would believe it. He walks so well. Yet his legs are no newer than his spirit or his ability as a draughtsman. Nor is his spirit or ability less firm than those new legs of wood and iron.

The Cost.
There are 1200 war wounded and sick in Letterman General Hospital in the Presidio at San Francisco. Most of these men from the Argonne, Belleau Wood, St. Mihiel, Chateau Thierry, are being remade bodily and spiritually. Of the two phases of their regeneration, the spiritual is perhaps the more difficult. For when a man is mangled of his legs, or his arms, or his eyes, he is apt to lose more than those physical assets. He loses his economic value and with it his confidence and his self-respect. For proof of that we have the legless, the armless, the blind begging on our street corners. They have lost their spirit.

Of course, this divine workshop of the military surgeons is an expensive regenerator. It takes thousands of dollars each month to carry on the work in Letterman Hospital alone, and Letterman is only one of many such hospitals, all of them run by the government.

So next April when the Victory Liberty Loan comes knocking at your door, remember that a big part of the money you lend is to be used to keep running the machinery of these divine workshops where men who were mangled for love of America are being remade.

Salt Lake City.—The house of the Utah legislature passed the anti-cigarette bill, which had already passed the senate, and the measure now goes to the governor.

GOV. LYNCH URGES WEST TO LAST BIG LOAN DRIVE

To the Citizens of the Twelfth Federal Reserve District:
The Fifth "Victory" Liberty Loan is in sight. Let us thank God that it is not just the Fifth Loan. Victory means the end of the war, the end of loans, the dawn of peace

JAMES K. LYNCH
Governor, 12th Federal Reserve District

THE FIRST THOUSAND
When a man gets a thousand dollars saved up there are always opportunities for a good investment. It is hard to place much less than that. That is why wealthy men who are self made advise young men to begin early and save the first thousand.
Until we went to war, in order to get a thousand dollars together one had to go to the bank and put a little

and prosperity. It means that the market price of government bonds will soon stabilize at par or better. It also means that commercial, agricultural, and industrial affairs will stabilize, and that the Hun-inspired clamor will cease.
We were advised that the war would last through 1919, probably through 1920, so we were prepared for that; to have done less would have been suicide. We prepared to crush the Hun on his own ground, and he prudently quit. It cost us some money but it saved the lives of half a million of our men. Was money ever better spent?

Now we have bills to pay, promises to make good, our men to bring home. This will take from five to six billion dollars. Let us get ready and raise it. A big task, but the last, and therefore easy. All together, shoulder to shoulder, and the loan goes over!
The "Ninety-first" is the Pacific Coast Division; remember their achievement, and honor ourselves by living up to it.
JAMES K. LYNCH,
Governor, Federal Reserve Bank of San Francisco; Chairman, Liberty Loan General Executive Board, Twelfth Federal Reserve District.

away each month or each week or tuck part of his salary away in an old sock. It was troublesome to go to the bank and the sock was too handy.
Now, however, there is an easy way to get that first thousand. The answer is War Savings Stamps. In them the government of the United States, backing those stamps with a guarantee of four per cent interest compounded quarterly, opens the way. One can begin with "two bits."
