SENATE WANTS TEXT OF PEACE TREATY

Bankers Called on to Explain How Treaty Was Brought Into United States.

Washington. — Resolutions asking the state department for the text of the treaty with Germany and directing the foreign relations committee to investigate how copies of the unpublished documents have reached private hands in New York, were adopted by the senate without a roll call.

The request for the treaty will be referred by state department officials to President Wilson and Secretary Lansing at Paris and pending a reply no official opinion is available here as to whether the text will be forthcoming.

Under the investigation resolution introduced at the request of the white house by Senator Hitchcock of Nebraska, senior democrat of the foreign relations committee, it is expected that a far-reaching inquiry will begin within a few days. The committee met Monday to formulate plans which may include the summoning of members of the American peace delegation.

Adoption of the Hitchcock resolution came after the debate had reached a dramatic climax in a clash between Mr. Hitchcock and Chairman Lodge of the foreign relations committee. After this clash a request by Mr. Lodge that the senate substitute an investigation resolution drawn by Senator Kellogg, republican of Minnesota, was withdrawn and the question was put on adoption.

In its investigation of how copies of the peace treaty reached New York, the senate foreign relations committee subpoenaed Jacob Schiff, Thomas F. Lamont, H. P. Davison, Paul Warburg, J. P. Morgan and Frank A. Vanderlip. Lamont was requested to bring with him any correspondence which passed between J. P. Morgan & Co. and its Paris and London agents regarding the treaty, and particularly any communications on the subject between the banking house and Davison, while the latter was abroad.

The committee also adopted unanimously a motion by Senator Fall, republican, of New Mexico, inviting Act-

PIE EATER.

Masonic Blowout.

Jefferson Masons were in the saddle last Saturday night by being host to a large number of visiting brothers from Albany, Stayton, Salem, Turner and Scio lodges. Several new members of the order were created, one candidate being from the Scio lodge. The Salem team, together with its splendid quartet conducted the ceremonies in unequalled style, the quartet's singing adding much to the beauty and impressiveness of the work.

An elegant supper was served by the Jefferson Eastern Star ladies, consisting of cake, strawberries and cream and coffee, in abundance. Not until 2:30 Sunday morning was the goat put to bed and doxology sung. Evidently the old song "We Won't Go Home 'Til Morning," was part of the program.

Those attending from Scio were: A. W. Arbuckle, J. W. Frost, G. E. Balsiger, J. T. Funk, John L. Kelly, John T. Brock, J. A. C. Brant, W. M. Phillips, J. M. Brown, C. W. Bragg, Thomas Small, D. C. Thomas, John Sumpter, Thomas Mankin.

Ribs Crushed.

Tally Gibbons is at the hospital because he stepped into a hole in the floor of the livery stable. The horse he was leading stepped into the same hole and also fell. Unfortunately Tally was caught between the floor and the horse and resulted in crushing three of Tally's ribs. The accident occurred Thursday of last week. The barn is being rearranged into a garage which accounts for the aforesaid hole in the floor.

Ing Secretary Polk to appear as a witness and to take part in the inquiry by cross examining witnesses and otherwise.

President Wilson, in a cablegram received by Senator Hitchcock, democrat, Nebraska, said he hoped the investigation by the senate foreign relations committee of how copies of the peace treaty reached private interests in New York would be "most thoroughly prosecuted."

Ferryboat Made Safe.

E. Giggey, the Shelburn ferryman called on The Tribune yesterday. In reply to a criticism made some time in April by John Miller, a neighbor, he says it was not his fault that the boat sunk at that time, but was due to faulty construction and light and inferior material used. The seams opened and constant use of a 4-inch pump couldn't keep the hull clear of water. The hull is being caulked and new planking put over the seams which are thoroughly pitched. Mr. Giggey thinks he will be able to keep the hull dry now.
