TELEGRAPHERS CALL NATION-WIDE STRIKE

Chicago.—A nation wide strike of telegraphers and telephone operators who are members of the Commercial Telegraphers' Union of America was ordered to take effect Wednesday morning at 8 A. M.

It was estimated at the headquarters here that the strike would affect between 50,000 and 100,000 individuals, of whom nearly 25,000 were said to be members of the union.

The decision to call a nation-wide strike was reached by President Konakamp after spending several days in Washington where he had directed a strike of union employees in ten south-eastern states. That strike followed a strike of telephone workers in Atlanta, where telephone employees were said to have been discharged because of union affiliations.
