## ROAD TO RECOVERY FOR WILSON SLOW

### Physicians Seem Satisfied With Progress the President is Making.

Washington.—While President Wilson is believed by his physicians to be on the road to recovery, the process will be slow and tedious. The president, it was reiterated at the White House, must resign himself to strict observance of the physicians' orders to put aside all thought of his office while convalescing and remain in bed until danger of a relapse has passed. Rear-Admiral Grayson, the president's personal physician, and the physicians he called in, continue to confine themselves to terse bulletins twice a day. That they are satisfied with the progress their patient is making is apparent from the spirit of optimism that pervades the White House, and the resentment with which various rumors as to the president's "real" condition are met by White House officials.

Dr. Grayson and the other physicians have adopted a policy of "standing pat" on their bulletins and will not even comment on the daily crop of rumors concerning the president that spring up over night.

The physicians' announcement was not taken to mean that Mr. Wilson would be prohibited from sitting up in bed, and it was considered entirely possible that he might be permitted to sign a few important bills and orders each day as his progress continues.

Discussion of rumors that Wilson will be ill so long it will be necessary to have his work delegated to someone else, probably the vice president, at least temporarily, was one of the principal topics of conversation around the government buildings. Many believed that if the president's case were as serious as that, his physicians would take the initiative in informing the country of it instead of letting things run along until the question is opened up in congress.

C. H. Burgraf of Albany has been elected president of the 2500 mutual

## Parents Attention!

Send your children to our store for their school supplies. We have everything that they need for their school work, viz.:

SCHOOL BOOKS  
TABLETS  
PENCILS  
PENS  
INK  
FOUNTAIN PENS  
PAINTS  
COLORS  
ERASERS  
ETC., ETC.

### SANTIAM FARM TOPICS

David Hoshburgh killed the first porcupine ever known in this section Sunday. The dog bayed it in the henroost and got his nose and mouth full of quills.

In moving the ensilage cutter to his farm Lock's team ran away and ditched the whole outfit.

Mrs. Jennie Lovejoy of Dallas is here for a week's visit with her mother, Mrs. S. W. Gaines.

John Gaines after visiting his brother S. W., has gone to visit his daughter, Mrs. Stoddard.

Mr. Mulligan and family of Portland have moved into Mrs. Phoebe Turner's home.

Mr. Snodgrass is filling seven silos as he intends feeding for beef.

Uncle Tom Smail filled his silo Sunday to while away his leisure.

Jorie Gaines came up from Portland Saturday night to see Uncle Pie Eater. At Newt Crabtree's an axle on his car broke but Freddy Bilyeu was quickly on the job and soon got Jorie on his way.

Farmers, let us wake up and take interest in our fair; we can have as good a fair in Scio as in Albany.

The stockholders' meeting Saturday was a light turnout. People are knocking the fair and who is to blame? The people of the county are. How can they expect an interesting fair when they will not put their stuff on exhibition? They cuss the fair and no one to blame but themselves. Some few failed to receive a premium and got sore. It is no wonder the fair is poor. Your farm will fail if you take no more interest in it than you do in our fair, which was organized to help the farmer improve his stock and encourage them to raise better crops. **PIE EATER.**

How do you like a lightless Scio? This is as it will be two or three years hence all the time unless we get busy and provide some means of power.

J. S. Warwick is moving from the farm into Scio, occupying his residence property on Pentland avenue.

Miss Helen Metcalf, a teacher in the Scio schools last year, was married last week to William A. Kamph, an Albany farmer.

Only the high price of building material prevents the construction of a number of new residences in Scio. A dozen or more houses could be leased if they were available.

Chickens should always be provided with fresh, clean drinking water. Charcoal, grit and oyster shell should be placed before the fowls so that they can have access to them at all times.

A carpet sweeper or a vacuum cleaner should be used in cleaning the carpets and rugs. A vacuum cleaner, operated by hand or electric power; removes practically all the dust and dirt from carpets and rugs in a dustless manner.

insurance to succeed the late Dr. J. L. Hill who founded the order and had been its president from foundation. The order has paid \$179,625 in benefits since its organization.

### SCHOOL NOTES.

The second student body meeting was held Friday and officers elected, viz.: Wilfrid Calavan, president; Hazel Philippi, treasurer; Robert Espey, paper editor. Meetings are to be held every Friday afternoon.

The manual training class is doing splendid work towards their shop and expect to have it completed by the last of next week.

The high school boys are putting in lots of football practice. They have almost enough big huskies to make a fine eleven.

The girls have nothing on the boys, having only their D. S. basketball team, while the boys have their M. T. football team as well as a basketball team.

The first fire drill of the term was had Thursday at 10:30 and the building was clear of all pupils in 45 seconds.

Miss Gladys Rodgers and George Stoddard visited the high school Friday afternoon.

### Scio a Dairy Center.

Scio is rapidly developing into a dairy center and Scio farmers are taking up dairying as a business more this year than ever before. New dairy herds made up of the best dairy cows available, are numerous. Not less than a dozen or more new silos have been erected this year and most of the dairy herds have been bred so that the cows freshen in the fall.

Our condensery auto trucks now cover the most of Linn county gathering in the milk which amounts to 15,000 to 16,000 pounds daily, and Manager Peery expects the amount to be swelled to 20,000 pounds by or before November 1. Something near the product of 8000 cows is being processed daily. Mr. Peery thinks that next spring, when the largest flow of milk is on, the condensery will receive 35,000 pounds or more and that the disbursements next year will pass the half million mark. When we add to this the disbursements of the Scio Lumber & Logging Co., the Scio Flouring Mill and other employing institutions, a million dollars or more are disbursed in this city in one year. This is a large sum of money to be disbursed in so small a town and the main source of the income is the dairy, so Scio may be written down as a dairy town with a highly progressive and successful farming community surrounding.

### Poison Saved Crop.

The hired man on a fairly large dry farm was the official poison mixer for his community in the Elmore, Idaho, campaign against ground squirrels. He was cutting a fair crop of wheat when the county agent approached him.

"What was your saving this year as a result of your treating for squirrels?" asked the agent.

"The crop," replied the hired man.

Someone is saying what you spend foolishly. Who is depositing your dollars? Invest them in war saving stamps and save them yourself.

### JORDAN ITEMS

P. W. McIntosh returned from Portland Saturday.

Mrs. C. L. Sherman of McMinnville is visiting at the home of her parents, the Harve Sheltons.

W. A. Thomas motored to Jefferson to help his son Percy with work.

Richard Montgomery of Oregon City and Mr. Taylor and son of The Dalles, nephews and brother-in-law of Mrs. Harve Shelton, are visiting with her.

Leo Rundt and family moved on to the Robert Pepperling place.

Thomas Phillips has rented his farm and the family goes to Lebanon.

Mrs. Bert Denning (Gladys Smith) has moved to Mill City where her husband has a position.

Mrs. Haman Shelton is back from Crabtree where she was for several weeks assisting in drying prunes.

Mrs. John Shelton and baby June are visiting grandma, Mrs. Fleming.

Andrew and N. I. Crabtree of Juniper Flat and Maupin, Or., uncles of Mrs. Peter Bilyeu, are visiting friends and relatives in this vicinity. **OREGON MIST.**

### Hospital Notes

The Misses Neal and Curtis, nurses from the Harrisburg hospital, were assisting at the local hospital this week.

Mrs. Will Hiron was operated on for removal of tonsils this week.

Mrs. Joe Munkers was operated on Monday for removal of tonsils.

Mrs. C. W. Braeg underwent a major operation on Monday and is doing as well as could be expected.

Mrs. N. Enders of Jordan is assisting at the hospital this week.

Dr. Prill reports the birth, October 15, of a daughter to Mr. and Mrs. E. J. Pepperling.

Mrs. Rossell, who is under treatment for the past week, is improving rapidly and will soon be able to return home.

Vilas Philippi got home yesterday from an extended business trip to Gold Beach where he bought a big bunch of sheep.

Swimming by moonlight is the latest fad in Scio society.

"Mother, may I go out to swim?"  
"Oh, yes my darling daughter;  
Hang your nightie on a willow limb  
But don't do near the water."

The Y. P. S. C. E., which meets every Sunday evening is interesting for old folks as well. The latter should attend if only to encourage the young people.

Mr. and Mrs. Jefferson Myers and Ed Myers drove to Brownville Sunday to visit with an aunt.

Fred Jones is now the possessor of a handsome Sonora Baby Grand which he purchased last week from J. S. Stieha, local dealer.

Dr. William F. Jones, an Albany veterinarian of considerable repute and a native of Oregon, died at his home Saturday night.

### At The Peoples Theatre

On Saturday and Sunday evenings Mrs. John Wesely will present Maurice Tourneur's seven reels of "Sporting Life," depicting all sorts of sports, such as boxing, horse-racing, etc.

## ALBANY FAILED TO PROPOSE PLAN

### Only Twenty-One Stockholders Attended the Fair Association Meeting Saturday.

It was expected that the Albany fair promoters would come to the special meeting of the fair stockholders with some definite plan anent the transferring of the Linn County Fair from Scio to Albany. But the representatives had no plan. They wanted Scio to make the proposition when, as they wanted the fair transferred to Albany it was their duty to place the proposition in some definite form.

There is a division of opinion among Linn County Fair stockholders whether they favor removal of the fair to Albany or not. Yet the fact that a part of the state appropriation was returned to the state treasury because all the classifications were not filled is evidence that our local people are not taking the interest in the fair they should.

Dr. A. G. Prill, R. Shelton and E. C. Peery were appointed a committee to confer with the stockholders of the Linn County Fair, and should a majority favor the transfer, then to formulate a plan and offer to submit to the Albany people.

It is generally believed that \$5000 will be necessary for Albany to raise to get the franchise. This will give them the present fairgrounds (20 acres) with a mortgage of \$850 thereon, all of the fair property, the franchise and appropriation from the state of from \$1600 to \$1700 and the general good will of the people of Scio and vicinity.

When Albany had the Linn County Fair it was permitted to die for lack of support. Let us hope that if they again secure the Linn County Fair franchise they will give it the support the enterprise merits and make the Linn County Fair the banner fair of the state.
