That is why the Oregon Agricultural College, the State University and the Normal School cannot maintain themselves on the old basis. In 1913 they

Had Only 2250 Students, but they Now Have 5400 Students

taxes are asked for the people would have applauded the change. But to keep on piling the burden of taxation without ever attempting to relieve the burden in any respect is to discourage producers and to drive them from our state.

The entire assessed valuation of property in Oregon is a little less than one billion dollars. Manifestly we cannot maintain state institutions equal to states which have many times our wealth. We must cut our garment in accordance with the cloth we have. There is a limit to the amount of taxes our people can pay and still be prosperous, and we have already reached that limit without adding to the burden.
