Every Oregon Boy and Every Oregon Girl Is a Possible College Student

Oregon sends a bigger percentage of its children to college than any other state, without exception.

That Is One of the State's Proudest Records

No state can have too much education. Education is the safeguard of freedom and of right, and higher education is the capstone of the public school system. But higher education in Oregon is in great danger. The State University and the Agricultural College have twice as many students as they have income to train.

Protect these Schools and their great work

by voting on May 21 for the Higher Educational relief measure. Higher Education pays the state in dollars and cents, in improved living, in scientific progress, in farm, orchard, garden, and stock ranch development, and in the better quality of its public and high school teaching.

THERE'S a scarecrow on duty in our county that is wearing a Blain Clothing Co's suit that was bought in 1904.

And the surprising part of it is that altho' old enough to vote, the suit still holds its original color. It is as fast today as the crows that it's scaring away.

We had this story brot to our attention by a customer of our's who buys his suits of us right along
