Frank Bartu, Walt Bilyeu, Gordon Wesely, Glen Holland, Lyle Ficklin, W. F. McAdoo, and I. V. McAdoo attended K. of P. Lodge in Albany Monday night.

Mrs. Esther Ray, of McMinnville, who is here visiting relatives, was a pleasant caller at the Tribune office Friday. She will continue to read the Tribune for another year.

Father Steder, of Jordan, is now numbered among our growing list of readers, having come into the office Saturday and ordered the Tribune sent to him for a year.

Harrisburg is planning six blocks of sewer and the laying of several blocks of cement sidewalks this year. Ought to make business good in the thriving little burg in south Linn.

Mrs. Don McKnight, of route 2, called at the Tribune office Friday and made us happy by leaving the amount which would insure her receiving the paper for another year.

Chas. F. Tate, of Hilo, Hawaiian Islands, and wife, spent Saturday with Walter Bilyeu and wife. Mr. Tate is shipping salesman with the Fisher people, and will now have his office in Seattle.

Gym Committee Is Killing

(Continued from page 1.)

uation, but seldom calling the student body into conference with them, and when a member of the council wanted to know anything about the progress, they were met with the words "your ideas are too big" and "it can't be done."

Have any plans been submitted to the pnblic by the committee? Has the committee explained in a conciliatory manner what was best and thus hold the confidence of the council and the bondholders. A statement that it can't be done is vague, carries no argument and is ambiguous in that nothing constructive is advanced. Give the council and public something definite, and then go ahead with the construction. As it now is the committee probably is saving money on the front end of the building but scooping it out by the shovelful at the backend—losing more in the present plan of procrastinating than the fondest dream or the most wild theory of any student.

We said "scooping out by the shovelful" and we mean it. Many men were willing and ready to donate from one to six days work on the construction, and this in the aggregate would probably mean anywhere from $500 to $1000. Now, labor may have to be employed at good wages—thus the scooping out at the back door what it is thought is saving at the front.

Why Not a Scio Man?

This end of the County is entitled to one of the reqresentatives in the legislature, and this being so, why wouldn't our fellowtownsman, John Wesely be the man to represent us? He possesses all the attributes of a good legislator, honest and capable, and would work to the best interests of this community and all of Linn County. He would have no ax to grind, no political favors to award, and would be free in all his activities. He would be a champion for all good laws, and a tireless fighter against laws unworthy of going upon the statutes. He is the man for the place and our citizens should get busy and see that he is on the ballot and then nominate and elect him. It can be done.

Ladies, Attention!
