

# Dollar Day Saturday

For one day, Saturday, June 3, 1922, we will hold our first Dollar Day, and offer this as an inducement to our friends to come to Scio on that day and help form the "Forks of the Santiam Community Club." We cannot be present at the meeting but our sympathies are to be with and for the organization.

### Passed Eighth Grade

Prof. H. E. Tobie has just received the paper announcing those who passed the eighth grade and will become members of the high school. They are: Mary Harmon, Helen and Milady Mykol and Helen Kruml. Ten others failed to pass and will be given another chance on the 8th and 9th of June. If they fail this time, the third opportunity will be given them on or about the first of September. Prof. Tobie says he will be glad to extend help to any pupil between now and June 8. He says there are about 39 in this section who failed to pass, hence his desire to give them this instruction.

### SANTIAM FARM NEWS

May 30

Newt Crabtree got quite a lick in the forehead Saturday while cutting wood, as stick flew up and hit him, cutting an ugly gash which bled profusely.

Claud Smith and wife, of Dallas, called in Sunday to see her father, Newt Crabtree.

Geo. and Elmer Griffin and James Milligan made a trip to Albany Sunday, bringing back 160 baby chicks.

James Kruml and wife, of Lebanon, and Charles Merritt and wife, of Providence, called in Sunday for the Pie Eater's dog.

John Griffin returned home from a six month's stay at Los Angeles, California.

Elmer Griffin came over Tuesday to spend the night with his brother John.

Decoration Day was a grand success as most of the people turned out at Providence and Franklin Butte leaving graves nicely decorated.

I have been in Oregon since 1852 and have never seen snow on the Cleveland mountains this late in May before. It is still white.

M. C. Gaines was over this way Tuesday gathering up his sheep for shearing.

Lester Bilyeu and wife called in Tuesday afternoon for a chat and a little music on the old man's Edison.

Gladys Horsburgh is nicely improved since being treated by the specialist.

David Horsburgh has sold a lot of his registered cattle to Mr. Jones.

The old man made a trip to Scio Friday, and as soon as Mrs. Morris found he was in town and mad as thunder as she confused him with Adam. She soon found him, wishing to apologize and make things right so it was soon settled and she promised to do it no more.

On my trip to Scio I see uncle Tom Small has the job cutting the road in to Franklin cemetery which is a credit to the Masons and to the neighborhood as he is doing a fine job.

Prof. Tobie and three young ladies were out this way sellin bonds to raise a little money to help finish the gymnasium. Having fair success he called on the old man at the Santiam farm, who was busted wide as a soap trough.

We just received the sad news of the death of Mrs. Kalina's father, John Chz. She is broken hearted over it.

### PIE EATER

Mrs. L. Kruml, who was so badly gored by a mad cow two weeks ago, was removed from the Scio hospital Monday afternoon to the home of John Jiroch. She is getting along fine and in another week will be taken to her home in the Larwood district.

## One Treatment for 100 Diseases

*Wonderful Results  
Obtained  
by Electricity*

Recent experiments have proved that high-frequency electricity so invigorates the body, purifies the blood and destroys poisons and diseased tissue in the body that with its aid almost any weakness or disease can be thrown off by nature. The treatment is taken in the home by means of a low-price electrical generator, and is as painless and shockless as a ray of sunshine.

This modern form of electricity has the wonderful property of immediately flooding any painful or weak part or organ with new, rich blood. Congestion is relieved, pain is driven out and relief is quick and positive. More than 100 disorders are successfully treated. An interesting book, giving full particulars of the results obtained, will be given to all persons calling or writing to the
