

THREE REASONS

why you should have us examine your eyes. First, we give a scientific examination; second, we never advise glasses unless they are really needed, and third, if you need glasses we will have them made under our personal supervision.

Oregon Made Home Knitting Yarns
A great surprise for the home knitters of Oregon, but still a fact. Furthermore, this yarn is absolutely virgin wool yarn; the wool was grown in Linn county, sold by Mr. Senders to the Oregon Worsted Company (mills located at Sellwood), made into worsted yarn by Roy T. Bishop, son of C. P. Bishop, proprietor of the Woolen Mill Store of Salem. Oregon knitters try this yarn out. All colors, 45c per ball of 2 ozs. Samples sent on application. Address C. P. Bishop, Box 75, Salem, Oregon.

The farmers around here are busy just now in laying by their crops, picking berries and otherwise getting ready for a great harvest. If we could just receive soaking rain a record crop would be realized, but more than average will result anyhow.

Charly Young, Tony Faltus and Joe Wesely and son, Max, went to Benton county Sunday to try their luck at bass fishing—and didn't have any. They caught two or three small ones and brought them home and turned them loose in the mill race.

The publishers of this paper do not like to publicly remind some of its readers that they are in arrears, and would not if it did not need the little money due it. We sure would appreciate a little lift from them. We are doing all we can to boost this section of Linn county, and you know it takes money to do business and boost. Can't we have a ready response to this request?

The state highway commission is at work connecting up the half mile stretch just north of Albany on the Pacific highway and soon will have it paved. It eliminates danger by going under the railroad not over it—a rule the highway commission is following wherever and whenever it can.

F. W. Haskell and family, who have been visiting the family of I. V. McAdoo, left Sunday evening for Woodburn to visit Mr. Haskell's mother, Mrs. Lucretia Haskell. Mr. Haskell is an experienced groceryman, and will commence working for the Roth Grocery Co., in Dallas next Monday.

The McAdoo family attended the funeral of an old time friend in Salem Tuesday afternoon. Mrs. Jake Bauman. She became partially paralyzed about seven years ago, and this malady finally claimed her last Friday. She was a kind neighbor and a friend indeed. No children survive, but two granddaughters, her husband and numerous relatives survive.

While in Salem Tuesday attending the funeral of Mrs. Jake Bauman, the editor noticed many new business houses and residences in the course of erection and remodeling. The Graybell confectionery and restaurant has leased the room until recently occupied by a drug store and is enlarging its business

He has been suffering considerable pain but is getting along fine.

J. N. Long reports that he believes in patronizing home industry more than ever now, because he received a check for \$82 from his five cows. He sells his milk to the condensery, and received the check from then. He says he finds it pays him better to sell the whole milk than to separate the cream. Can anyone beat this record? One cow, he says, beats 50 pounds per day.

Sam Stoller and wife planned a trip to the coast which took them to Tillamook where they visited Archie, Willard and Delbert Long. Of course they could not go without taking J. N. Long and wife along, because the Long boys are their sons. The happy crowd had a splendid visit, assisted with milking 38 cows, which kept them out of mischief. The Long boys take 14 cans of milk to the cheese factory each day, and are doing fine. Willard Long also puts in 8 hours on the road along with his dairy work.
