SCIO, LINN COUNTY, OREGON, THURSDAY, FEBRUARY 1, 1923

\$1.75 THE YEAR

High School Notes

The high school pupils were all very sorry to lose their school mate and friend, Peggy Copenhaver. Miss Copenhaver has moved to Castle Rock, Wash.

The boys and girls basketball teams played Mill City Friday evening. The Mill City teams won both games.

Don't forget the boy's basketball game here Wed., the 31st. Scio vs. Mute boys.

The entire school was honored by a visit from Mrs. Edna Geer, County School Superintendent, Wednesday.

Dellarea Sutherland, Editor of the Sphinx, and Miss Humphrey will leave for Eugene Thursday evening, where they will attend the press conference, held under the auspices of the University of Oregon School of Journalism.

The third dance to be given by the student body in the new gymnasium is advertised for Friday, Feb. 2.

Besides winning the basketball game, the center of the Mill City high school team also won one of the Scio girls. Someone should use discretion, because according to the old theory, blondes and brunettes do not match very well. We wonder why Buena has adopted the by word, "Oh! Shaw?"

In the school meeting last Wednesday the need of education for a few of the voters was evident. We are sorry they did not have a chance to gain more knowledge but hope they will remedy the cause and see that every boy and girl in Scio receives the best of education in the future.

Word has been received in this city by friends announcing the marriage of Miss Alice Prill, a former domestic science teacher in the high school, that she was married on Friday, Dec. 26, at Pima, Arizona, to James Homer Shrewsbury. Mrs. Shrewsbury is a cousin of Dr. A. G. Prill. Scio friends send congratulations.

Riley Shelton says the boys and girls are not taking hold of the dairy cow and calf club like he would hope, but says now is the time. It costs nothing to enter, and all boys and girls now have a chance to get into business for themselves. See him and learn more about the club.

For several days the train service through Lebanon has been discontinued, but beginning Tuesday the bridge at Lebanon has been sufficiently repaired to allow trains passing over. The main pier of the bridge was damaged by the recent flood. The trains have been coming from Albany over the Mukers line to Shelburne, then backing into West Scio as far as Crabtree.

Hon. S. H. Gein has been instrumental in getting one of his bills through the legislature, that of providing for county testing for tuberculin in dairy cows. A good bill, and one that will be of great advantage to the dairymen of Linn county.

Albany is rejoicing that it has reduced its bonded debt to a little over \$100,000, and says it is in good shape.

COMMITTEES SLOW IN REPORTING BILLS

With Half of Session Gone Only Six Unimportant Measures Have Passed Both Houses.

Salem.—When the legislature assembled Monday for the fourth week of the session there was very little to its credit in the way of bills passed and sent up to the governor. Only six unimportant bills had passed both houses. Most of the failure to accomplish results during the first three weeks is attributed to failure of the committees to report out bills referred to them for attention.

With one-half of the session gone by without any legislation of major importance, both houses must turn in and do some real work this week if they wish to keep the legislative wheels from being clogged late in the session. Doubtless both houses will quit cutting out Saturday's hereafter, and in the future work Saturday mornings and hold a short afternoon session, instead of suspending activities Friday afternoon.

At the close of the third week of the session the house had a total of 191 bills before it and the senate 104, a grand total far less than any session in recent years.

Not many of the bills before either house are of much controversial moment, and ought not to require much time for their disposition once they get out of committee and up for final action.

Insurance Bills Missing.

Some big pieces of legislation much talked of before the session have not made their appearance. Particularly, the measures bearing on the industrial accident commission, expect to come from both sides of the fence, have not been put in. One of these bills from the labor side would be to propose a constitutional amendment to make the act compulsory, and the other from the employers' side would open the act further to stock insurance companies and self-insurance. While measures covering both of these have been prepared, and have been at the capitol for some little time, appearances indicate that neither may materialize.

Practically all of the general appropriation bills have yet to come in, only one deficiency bill having been put through to save interest charges, and one of the measures to provide partially for legislative expenses.

The Hall consolidation bill will take its place upon the calendar of the senate for final passage this week.

Senator Johnson, whose bill was sidetracked by the committee in favor of the Hall measure, abandoned his plan of attempting to substitute his bill for that of Senator Hall. The Hall bill received the endorsement of Governor Pierce in a speech in Portland last week.

Five interlocking bills looking to the consolidation and elimination of state departments, boards and commissions, were introduced by Senator Hare.

Consider Income Tax Bills.

Actual consideration of the three income tax bills introduced in the legislature began Monday night when the joint committee on assessment and taxation began a series of sessions with members of the state tax invest-

Now is a good time to purchase fertilizers needed for Spring. Quotations are low, due to large receipts, and reports indicate a rise in prices as stocks are reduced. Best results are obtained by applying fertilizers early in the spring while there is moisture to carry them in solution and to the plants. There was a shortage of land pasture last spring. Fooled orders through the county agent and farm bureau resulted in material saving in Benton county. —O. A. C. Exp. station.

Dr. Scofield, the chiropractor, says he was sorry he had to give up his regular visits to Scio, as he had learned to like the people here fine, but that a growing business in the office and other places visited, made the change necessary.
